

Norwich Bulletin and Courier. 117 YEARS OLD. Subscription price, 12c a week; 50c a month; \$6.00 a year.

The Circulation of the Bulletin. The Bulletin has the largest circulation of any paper in Eastern Connecticut.

The Bulletin has the largest circulation of any paper in Eastern Connecticut. It is delivered to over 5,300 of the 4,633 homes in Norwich.

The Bulletin is sold in every town and on all of the R. F. D. routes in Eastern Connecticut.

CIRCULATION table with columns for year (1901, 1905, March 15) and circulation numbers (4,412, 5,920, 8,283).

THE CLEAN UP SEASON. Now that winter has passed and spring is beginning to put its face on the cleaning up of the city as well as to the housecleaning.

This is the time of year when the city government begins to put into effect its efforts for improvements of the streets and start whatever work which has been delayed by the cold weather.

Unfettered action is necessary in any effort of the putting of the streets, parks and public buildings into presentable shape can be accomplished by making every yard spick and span.

AUTOMOBILE LAWS. Several bills before the legislature concern the further regulating of the speed of automobiles upon the highways of cities and towns of the state.

It didn't take Assistant Secretary Wilson long to act even though it threatened to cut short the first vacation of Secretary of State Bryan.

It is a fortunate thing for the New York girl who cannot live on \$12,000 a year that she can get all she needs in the way of a chance to try her previous allowance.

As applied to the majority of people the director of the mint is unquestionably right when he thinks that "gold will come slowly during the next ten years," and probably thereafter.

With President Wilson committed to the budget system the advocacy by President Taft seems to have found upon good ground. It ought to be accomplished without taking four years.

For their own welfare the Indians are to run a congress of their own in Washington. They will be able to get some points from the national congress when it comes to the big, or pork barrel bill.

It is said that E. H. Harriman's estate has advanced from seventy to eighty millions since his death in 1909. It cannot be that this gain was made from a reduction in expenses occasioned by his death.

It is to be hoped that New Hampshire's new senator will have better success in securing a sensible revision of the tariff than he did in trying to influence his state legislature for woman's suffrage.

SAFETY FOR PUBLICS. Long is the list of public men who have been killed by the bullet of an assassin, murdered not because of personal enmity, but because they held a position at the head of their country or high in the affairs of a nation.

Too much liberty is given men of high type and with high resolution that it has been a dozen years ago that our beloved President McKinley was shot down by one of similar characteristics.

HELPER PRISONERS. Every state feels the importance of doing its full duty to its prisoners. What they are serving time as a punishment for their crimes is possible to bring to bear good influences which will have greater effect upon the future life of the convict than the actual punishment.

Now that winter has passed and spring is beginning to put its face on the cleaning up of the city as well as to the housecleaning. There is always a large accumulation of waste material and plenty of unclean spots which have been allowed to exist through the winter, which should attract the attention and action of the owners of the property for its early removal.

EDITORIAL NOTES. Every day now brings the out of doors season nearer, and the schedule cannot start too soon.

Happy thought for today: March, the month of wind, has thus far been on a period of good behavior.

It is style which costs in new garments. The tighter the hobbles gets the greater the price as well as discomfort.

Connecticut's senators though they are republicans have received appointments on some excellent committees. It is a just recognition of ability.

THE MAN WHO TALKS. The man who has faith in his ability to lead, usually has little regard for what his enemies may say of him. He knows he has good reasons for what he does and he is not to be blown by the wind of public opinion.

It is worse than losing a leg for a young man to get installed in his mind the idea that he is a failure in life for him. He has created for himself a life distorting mirror which distorts his true self.

Opportunity does not have to knock at your door. It is everywhere. It is in the air, it is in the ground, it is in the water, it is in the fire, it is in the wind, it is in the sun, it is in the moon, it is in the stars, it is in the planets, it is in the galaxies, it is in the universe.

SHAMROCK AND CLOVER. (Written Especially for The Bulletin.) They were hurriedly dressed in their best and they met each other in Ireland. Jack Dundon was an ardent lover of his country and he had been born and bred in America. His parents had come to this country in the early years of the century.

It is worse than losing a leg for a young man to get installed in his mind the idea that he is a failure in life for him. He has created for himself a life distorting mirror which distorts his true self.

Opportunity does not have to knock at your door. It is everywhere. It is in the air, it is in the ground, it is in the water, it is in the fire, it is in the wind, it is in the sun, it is in the moon, it is in the stars, it is in the planets, it is in the galaxies, it is in the universe.

LETTERS TO THE EDITOR. Is the Best Water Too Good? Mr. Editor: I was surprised to see the announcement that the Superior Corkery of the water board has decided that the Norwich public shall continue to be served with the Fairview water, and that the Stony Brook water will be reserved until it is needed.

It is worse than losing a leg for a young man to get installed in his mind the idea that he is a failure in life for him. He has created for himself a life distorting mirror which distorts his true self.

Opportunity does not have to knock at your door. It is everywhere. It is in the air, it is in the ground, it is in the water, it is in the fire, it is in the wind, it is in the sun, it is in the moon, it is in the stars, it is in the planets, it is in the galaxies, it is in the universe.

Now that winter has passed and spring is beginning to put its face on the cleaning up of the city as well as to the housecleaning. It is said that E. H. Harriman's estate has advanced from seventy to eighty millions since his death in 1909. It cannot be that this gain was made from a reduction in expenses occasioned by his death.

It is to be hoped that New Hampshire's new senator will have better success in securing a sensible revision of the tariff than he did in trying to influence his state legislature for woman's suffrage.

Solving the Problem. Mr. Editor: As to the solution of that problem propounded by Inquirer, I think Mr. Froland had read it with any care he would have seen that I did not send two different answers to the same question, one solved by arithmetic, the other by algebra. All this difference of opinion rises from a difference of opinion on one point. I think almost any one will agree with me that to sell any article so as to make a profit of 10 per cent. is to get \$1.10 for every dollar laid out. Mr. Froland does not think so, and therein lies all the difference. I have been engaged in the peddling of "ten years of my life," and I believe I was rather noted for a persistence in explaining to dull scholars until I made them understand.

It is worse than losing a leg for a young man to get installed in his mind the idea that he is a failure in life for him. He has created for himself a life distorting mirror which distorts his true self.

Opportunity does not have to knock at your door. It is everywhere. It is in the air, it is in the ground, it is in the water, it is in the fire, it is in the wind, it is in the sun, it is in the moon, it is in the stars, it is in the planets, it is in the galaxies, it is in the universe.

MANCHESTER. John Sullivan, 71, a civil war veteran who got particular pleasure from his part in the war, died at his home on Maple street, on Wednesday. Mr. Sullivan served in the First Cavalry, Connecticut cavalry organized in Connecticut.

It is worse than losing a leg for a young man to get installed in his mind the idea that he is a failure in life for him. He has created for himself a life distorting mirror which distorts his true self.

"77" FOR GRIP & COLDS. The Grip or Influenza is epidemic in the city. The disease has been gaining rapidly in the last six weeks, according to information obtained yesterday at the Department of Health. It is believed by the health authorities, however, that it will in no wise be as far-reaching or as severe as in 1890-'91.

It is worse than losing a leg for a young man to get installed in his mind the idea that he is a failure in life for him. He has created for himself a life distorting mirror which distorts his true self.
