Rev. Lucian Drury of the Third Baptist church, North Stonington, and Mrs. Drury came to Norwich Sunday and attended the morning services at the Central Baptist church.

OBITUARY.

Mrs. Jerome Burke. Mrs. Mar. Herbert widow of Jerome Burke, died at 5 o'clock Sunday afternoon. Death was due to a shock which occurred a week ago, and after which she was taken to the hospital but was unable to rally. She was 69 years of age.

She was born in New Haven and her maiden name was Mary Herbert. She came to Norwich when a young girl and resided here for a number of years ago and continued to reside here thereafter. She was married in Norwich to Jerome Burke who died several years ago. She is survived by a son, Edward J. Burke and a sister, Mrs. Alice M. Myrtle, of this city. There are also several nieces in this city.

Wauregan's Easter Sunday Dinner. The Easter Sunday dinner at the Wauregan house was one of the finest that this popular hostelry affords and it was a most enjoyable affair. The pressed praise of the menu and the accompanying embellishments in the way of music and decorations that contributed to the enjoyment of all present.

The musical programme by the orchestra directed by Elizabeth Geary Danby was finely rendered and the singing solos of Miss Nellie J. Parker with violin obligato by G. Herbert Rich were choice numbers in the list. The floral decorations were profuse and artistically arranged.

Baptized Children at Groton. Rev. Theodore Gault of the German Lutheran church was in Groton on Friday where at the home of a German resident he baptized four children for parents of that nationality, who were rejoiced to have a minister of their own denomination visit them.

New Orleans may soon add 100 men to its police force.

Look Into the World's Mirror Every Day

By JOHN P. FALLON

Have you stopped to think of your daily newspaper as the World's Mirror? Every time you look into your newspaper you see reflected the doings and happenings of the earth.

Not long ago you read a word picture of the Antarctic regions, of the South Pole, of the experiences encountered by a band of brave and noble explorers. Recently you have had a glimpse into the distant brought about by the Balkan war. You know a great deal about Mexico and her civil troubles. Today you are reading with keen interest the proposed tariff changes which may raise or lower your cost of living.

All these things are of great interest to you, for you know that to do with your cost of living is most important. One of these things is THE BULLETIN which appears in THE BULLETIN every day. By reading the advertisement in this paper you will know where to buy and what to buy at the lowest price. The World's Mirror don't overlook the opportunity to economize.

At the meeting of the World's Mirror Association, held at the Hotel, the following resolutions were adopted: That the World's Mirror be published every day.

LYN'S POINT COAL YARD FIRE

Damage Estimated at From \$5,000 to \$10,000 Done to Railroad Property Sunday Afternoon—Cause of Blaze Unknown—Started on Roof of Coal Hoister—Tugs From New London Save the Yards.

Starting from an unknown cause fire was discovered Sunday afternoon about 2 o'clock on the roof of one of the hoisting engines of the New Haven road's coal yard at Lynn's Point, and was not under control until 6 o'clock, by which time it had done damage estimated at from \$5,000 to \$10,000, to the railroad's coal yard and wharves at the Point. The largest amount of damage was to the wharf property.

Engineer Tubbs, who is employed by the New Haven road and lives at Lynn's Point, was the first to see the fire, which was on the roof. He sounded the alarm and a force of men at the Point, consisting mostly of the coal shovelers, were in the vicinity, waiting to work to fight the fire, which made rapid headway. It was burning on the framework of one of the hoisting engines in the upper yard. Water for fighting the blaze was supplied from the railroad's water tank at the Point.

Word was sent to this city and Freight Agent C. J. Ishler mustered a fire-fighting crew here by taking the freight car southbound freight No. 795, from Worcester, with some of the local fire engines, to Lynn's Point, where they carried them down to Lynn's Point with a supply of fire extinguishers, and the fire fighting equipment of the engine helped against the blaze, and a force of about 18 men worked hard to hold the fire in check, doing good service, but it was seen through the engines of the New Haven road's coal yard at Lynn's Point, and was not under control until 6 o'clock, by which time it had done damage estimated at from \$5,000 to \$10,000, to the railroad's coal yard and wharves at the Point. The largest amount of damage was to the wharf property.
