CHANGE AND DERRICK INJURED
Yankee Manager Twists Ankle and Derrick Spiked in Hand
—Brooklyn Superbs Defeater 8 to 4—Young's Work Creates Sensation—Fisher Twirls Good Ball.

Brooklyn, N. Y., April 7.—The New York Americans by a score of 4 to 1 defeated the Brooklyn Superbs in the second of the two exhibition games arranged between the teams. It was the first victory, however, as Chance and Derrick were hurt. Chance twisted his ankle turning first base after a base hit in the second inning and was forced to retire. Derrick was spiked on the hand by Wheat when the latter bled into the fifth and was badly cut. Neither man may be able to start the championship season on Thursday. Stierman, who succeeded Derrick, set the crowd wild with brilliant stops and throws. New York won by hitting this of Ragon and timely drives after Wagner had sent men to first on balls. Warhop started the pitching for the Yankees, but after getting Stengel for three balls and two strikes retired because of a sore arm. Fisher pitched a fine game considering the cold weather.

FINANCIAL AND COMMERCIAL

TRADING LAGS.
Movements Hesitating, With a Tendency Toward Heaviness.

New York, April 7.—Trading in stocks lagged today and movements were hesitating, with a tendency toward heaviness. Various restraining factors effectively blocked continuation of the recovery upward movement. Abroad the markets reflected the effect of complication in the Balkan situation owing to the attitude of Montenegro. American stocks in London sold down sharply before the opening here, and Europe disposed of several thousand shares of the international stocks in this market. From Washington came news of the convening of congress and introduction of the tariff bill. In the city there are no important deviations from the forecast, and its publication was of no effect upon the list. But traders were in no mood to resume operations extensively on the long side of the market, on the eve of presentation of the president's message and the beginning of what is expected to be a protracted struggle over the tariff.

Opening prices were considerably lower with numerous declines of a point or more. Stocks moved up slowly, and before noon had recovered most of the early losses, with Reading selling at a point below yesterday's closing. During the remainder of the session movements were narrow and irregular until shortly before the close, when the market fell 2 points more to 34 1/2. Another low price, Chesapeake and Ohio continued its decline, falling 1/2 to 56. East Sugar was again sold down, yielding over three points. Bonds lost ground, with some large declines in special issues. Total sales, per cent. more to 34 1/2.

A VALUABLE SUGGESTION
IMPORTANT TO EVERYONE

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water, eat less food, and eat more heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as large back, inability to hold urine, smarting or burning, brick-dust or sediment, sallow complexion, rhe
