GREENEVILLE NEWS. Women Try to Prevent Workman from Getting to Bleachery—Arrested and Placed on Probation.

John Andocaviz, a Polish man of about 40 years, of a slight build, was set upon by a crowd of eight sturdy Polish women early Thursday morning when he attempted to enter the gates of the Greenville plant of the U. S. Finishing company and after the police intervened interference was necessary before the women could get up their attack. When the trouble broke out Policeman Bray, who was in the immediate neighborhood, tried to get the women to quiet the women. Just about this time Sergeant Matthews with several other men from the station and ordered the women to stop fighting, but as some of them would not keep quiet Sergeant Matthews ordered their arrest and they were placed in the Greenville station later being taken to court in a cab. As one of the women was getting into the cab with the police officers a man standing nearby handed her a baby and took the baby to the courthouse.

When court was opened the room was filled with many friends and prisoners who were presented for trial before Judge Brown. Five women who are charged with disturbing the peace and preventing John Andocaviz from going to work in the plant of the U. S. Finishing company and a woman interpreter had to be used. Among the witnesses were John Health, Sergeant Matthews, Policeman Bray and Murphy and John Andocaviz. The testimony brought out the fact that the women had started their work in the bleachery when he was surrounded by the eight women, who held him around considerably and he claimed the women were several times. As soon as Andocaviz saw that he was getting the worst of the fight he started to run and threw it into the street.

Sergeant Matthews stated that Andocaviz had had trouble getting to work Wednesday morning on account of the interference of the women and as they appeared in larger force Thursday morning he thought it was time to act. The prisoners claimed that the women were trying to prevent the workman from getting to work and that they had been arrested for disturbing the peace and preventing John Andocaviz from going to work in the plant of the U. S. Finishing company and a woman interpreter had to be used.
