DANIELS DENOUNCED BY SOCIALISTS

Secretary of Navy Held Responsible for the Demonstration by U. S. Jackies at Seattle

MEMORIAL TO BE SENT TO PRESIDENT WILSON

The Secretary's Reference to the Flag Characterized as "A Most Inflammatory Utterance"—Chief Decration of Flag is by its Use to Cloak Rascality and Tyranny, Says the Memorial—Street Meetings Forbidden at Seattle.

Seattle, Wash., July 20.—Responsibility for the riots Friday night in which the headquarters of the socialists and the Industrial Workers of the World were sacked and the furniture burned in the streets by mobs of civilians led by sailors from the Pacific reserve fleet was placed on Secretary of the Navy Daniels in a memorial to President Wilson adopted by the radical wing of the socialist party today. The headquarters of this branch of the socialists was one of the places wrecked by the mob.

Denounces Secretary Daniels. The memorial denounces Secretary Daniels for his speech at the Rainier Club Thursday night in which he made a brief reference to patriotism and denounced the red flag and its supporters.

The memorial sets forth that the socialist party has never advocated violence and has never "advocated the use of force, attempted or even remotely dreamed of any act of desecration to the flag of the United States or any emblem of its government."

Makes Lie of its Symbolism. "Moreover," continues the memorial, "we submit that the chief way in which the national emblem is being desecrated in this and other cities of the Union is by the making of rascality and tyrannical abuses of the aspirant poor within its folds, in short, making a lie of its symbolism. We call attention, Mr. President, to the sayings of Dr. Johnson: 'Patriotism is the last refuge of the scoundrel.'"

With the exception of the laudatory and consistently insisted that the laudatory toward which our activities and our propaganda were directed was not one of its objects.

Newspaper Blamed for Lawlessness. The memorial then reviews local conditions and alleges that a local newspaper has bent its energies "toward the creation and infatuation of a criminal lawless and intemperate mob to avenge itself upon us, to destroy our libraries, efface our book stores and to threaten our very lives."

LARGER PACKAGES AND LOWER RATES

Changes in Parcel Post Service to Take Effect Aug. 15.

Washington, July 20.—Plans for the extension, improvement and reduction in rates of the Parcel Post were announced yesterday by Postmaster General Burleson. The changes, which are to become effective on August 15, include an increase from 11 pounds to 20 pounds in the maximum weight of parcels; a material reduction in the postage rates for first and second zones; and the abandonment of the parcel map as a means of computing rates and the substitution of a rate chart individualized to every postoffice in the United States. The plans contemplate the purchase of a large number of automatic parcel post machines exclusively for the delivery of parcel post matter.

While, for the present, the maximum weight limit of 20 pounds and the reduction in rates will apply only to the first and second zones, from any given postoffice to any other postoffice within 15 miles—the changes directed today constitute the first long step towards a universal extension of the system and a general reduction in the rates of postage on parcel matter.

May Yet Handle 100 Pound Packages.

"It is my expectation and belief," said Postmaster General Burleson, "that eventually—and it may be fifteen or twenty years hence—the parcel post will practically take the place of the small package transportation business in the United States. The maximum limit, extending to 20 pounds, which I expect to see increased to 100 pounds, and experience may demonstrate the practicability of handling the parcel business at even lower rates than we now propose."

In the making of extensions and reductions of rates it is necessary for us to proceed with caution, so as to afford ample opportunity to prepare for the increased business. For that reason we have made the changes proposed apply only to the first and second zones. I appreciate fully the sentiment for an increase in the weight limit and a reduction in rates to all zones, but it is necessary for us, in a sense to feel our way."

The first zone shall include the territory within the local delivery of any office and the first zone rate of postage will apply to all parcel post mail deposited at any office for local delivery by city carrier or on routes remaining from that postoffice.

The second zone shall include the remainder of what is now the first zone together with the present second zone, and shall include all units of area located in whole or in part within radius of approximately 150 miles from any given post office.

Reduction of Rates.

The rate of postage on parcels weighing in excess of four ounces in the proposed zones will be reduced from five cents for the first pound and one cent for each additional pound or fraction thereof to five cents for the first pound and one cent for each additional pound or fraction thereof, and the rate for the second zone will be reduced from five cents for the first pound and three cents for each additional pound or fraction thereof to five cents for the first pound and one cent for each additional pound or fraction thereof.

The maximum weight of parcel post packages will be increased from 11 pounds to twenty pounds, the increase of weight to apply only to the first and second zones. No change will be made in the size or form of the package.

Derivatives Captured Vailed Woman.

Late last night a woman left the Pankhurst flat. She walked feebly and was supported by two friends, who assisted her into a taxicab. The detectives who had guarded the building night and day since Mrs. Pankhurst escaped in the riot after the meeting of the Women's Social and Political Union on July 17, considered that Mrs. Pankhurst was attempting to flee. They jumped into the cab as it drove off and ordered the driver to proceed to Scotland Yard. Before they reached their destination they lifted the veil and discovered their prisoner was a veiled woman. There was nothing for them to do but release her, as she had violated no law.

Cab Arouses Detective's Suspicion.

Mrs. Pankhurst's flat is in a narrow, dimly lighted street, near Parliament. A cab stopped in front of the building shortly before midnight. Three detectives on duty observed two women alight and proceed to the second floor, where the Pankhurst apartments are located. The inspectors blew their whistles and entered the building.

Mob Fights Officer.

Simultaneous with a party of fifty men and women, including a number of stout navies, gathered at the entrance. A veiled woman, leaning heavily on a friend, was seen to enter the building. Immediately there was a clash between the police and the organized forces of the militants. Two detectives were wounded and a third destroyed the taxi had turned the corner the crowd scattered and the street resumed its normal appearance.

Pankhurst Flat Still Lighted.

In the building, however, the flat was unguarded, and later the police began to fear that probably they had been outwitted. There were lights in the flat, and the door was open. Many mail boxes in London and the provinces were being destroyed during the night, it is believed by suffragettes.

Change of Administration in Bulgaria Believed to Augur Well for Peace—Turkey May Prove an Obstacle

London, July 20.—The advent of a new Bulgarian cabinet, comprising a coalition of the liberal groups, seems to have brought a prospect that peace negotiations will soon be entered into. After vain attempts to negotiate separately with Rumania, the Bulgarian government accepted the advice of Austria and Russia and offered Rumania an important territorial concession. Bulgaria also sent delegates to meet the Servians and Greeks, and presumably Rumanian representatives at Nish to negotiate an armistice and peace.

Turkey an Obstacle to Peace.

It is confirmed from Athens that Serbia, Greece and Montenegro are ready to participate in these negotiations. Turkey, however, has introduced a new complication and has notified the powers of her intention to make the Maritza river the new frontier, but that the powers set the claims aside in order to expedite peace; that the ports would be prepared to settle the question by diplomatic means, but that the atrocious realism of the Bulgarians in the occupied territories make it impossible to hope for a diplomatic settlement, and that new conditions arising from the war between the allies make it doubly necessary for Turkey to secure a frontier guaranteeing safety to Constantinople and the Gallipolis.

Unimportant Fighting.

The ports promises not to cross the new Maritza frontier and asks the powers' assistance in establishing it so as to secure durable relations between Turkey and Bulgaria.

It is not considered likely, however, that Europe will permit the decisions of the London conference thus to be thrust aside.

Fighting of no great importance continues on the Greek and Serbian fronts. In a smart engagement to the north of Nevropek the Greeks captured nine Bulgarian guns.

Turks Enter Adrianople.

London, July 20.—The Turks have entered Adrianople, after a brief conflict with the Bulgarian garrison, says a Sofia despatch to the Times. Turkish troops are burning, pillaging and committing atrocities. The Rumanian troops are advancing in an easterly direction and threatening Eastern Rumelia.

Bulgars Start Fires.

Constantinople, July 20.—Several of the quarters in Pera, European Constantinople, were set on fire by Bulgarian bands.

NECKLACE FOUND BY STUDENT WAS BOGUS.

Was Thought It Might be Missing \$650.00 String of Pearls.

Paris, July 20.—A student entered a jewelry store this evening with a pearl necklace, which he said he had found. The police thought possibly that this might be the \$650.00 necklace which is alleged to have been stolen recently during transit by post from Paris to a dealer in London and for the return of which a reward of \$2,000 has been offered. They summoned the Paris agent of Max Meyer, the London dealer to which the necklace had been shipped, and a careful examination of the pearls was made. The agent declared that while seemingly identical, he did not believe it was the stolen necklace. It will be examined by experts tomorrow.

The agent later declared that the pearl necklace was bogus, but an excellent imitation of the other, in French in make and number of pearls. The student says that the necklace was dropped on a restaurant terrace by two South Americans.

BRYAN DELIVERS TWO FREE SPEECHES.

Tells Audience People Will Find Fault, No Matter What One Does.

Warsaw, Ind., July 20.—Secretary of State Bryan today made two addresses to crowds at the Winona Chautauque grounds, and announced that his speaking dates for next Thursday, Friday and Saturday had been cancelled to enable him to return to Washington for the conference with Ambassador Wilson upon the Mexican situation.

The secretary received no compensation for his speeches today, and the gates at the grounds were thrown open, the crowds being admitted free. "I do not object to people objecting. I have had in my experience that people will find fault no matter what a man does, whether it is good or bad."

BOILER MAKERS WILL NOT RETURN TO WORK

Reject the Proposition of Settlement Presented.

Boston, July 20.—Six hundred striking boiler makers from various Massachusetts cities voted unanimously today to reject the proposition of settlement of the strike contained in the control of the city by the secretary of the department of labor, Louis F. Post. The proposition, which was submitted by Mr. Post as the best offer the employers were ready to make, called for the return of the men to work without a guarantee of increased wages.

Complications are Predicted

DEMOCRATIC LEADERS WORRY OVER NEW LAW.

Washington, July 20.—Complications are predicted as certain to arise over the installation of the direct election method for the election of United States senators. Most of the trouble is expected to result from the failure of the democratic side to provide promptly appropriate methods for carrying out the recent amendment to the constitution for the direct election of senators. The democratic side is more anxious about the situation than the republicans. Should two or more vacancies occur on the democratic side with the chamber, the margin of power in the body would be gone.

32 Terms to Expire in 1915.

Thirty-two senatorial terms will expire in 1915. Some of the states affected already have provided a method of popular election, but a large number have not and vacancies caused by death or resignation may call at any time for a popular election from states which have not yet acted.

National Law Considered.

Democratic members of the committee on privileges and immunities have considered the advisability of having a national law prescribing a method and applying to all states alike. To do this congress would exercise its power, under the constitution to revise state legislation as to the time and manner of selecting senators, a step which never was appealed to Southern senators. No southern had the suggestion of federal legislation been made than they entered protest and the idea has been abandoned.

Maryland Case Questioned.

The governor of Maryland has decided he is empowered under existing laws to issue writs to fill the unexpired term of the late Senator Raynor. Senator Jackson in Maryland is opposing the constitution of the senate are said to entertain doubt as to the power of the governor to issue the writ, and the appearance of a new senator from Maryland to take the oath of office may mark the initial fight in the senate over the senatorial election machinery.

A Possible Emergency Measure.

Should vacancies occur during the pendency of the tariff act, in states where suitable machinery is not now provided, the constitution would authorize a congressional committee world at once urge the convening of the state legislatures to authorize the governor to appoint and to provide for the placing of candidates for senator on the ballots in future elections.
