BOBBY SEARCH TAKES WIDE RANGE

Illuminating Details Gleaned from Letters of Manufacturers' Association

SUGGEST FEUD WITH FEDERATION OF LABOR

Over Attempt to Secure Control of Legislative Agencies of the Government—Emery Expects Gompers to Run Things with High Hand in Department of Labor

Washington, Aug. 5.—From the files of the National Association of Manufacturers today came the details of legislative activities of the widest range, extending from the home districts of members of congress throughout the country to the White House and the capitol. While the bobby search investigators pursued their probe by an examination of former Senator Joseph B. Foraker of Ohio, the house committee got underway and placed in the record a hundred letters from the files of James A. Emery, chairman for the National Association of Manufacturers.

From attempts to influence the selection of labor and judiciary committees of the house, the discussion of the possibility of coupling currency legislation with the tariff bill at the present session of congress, from conversations with Majority Leader Oscar W. Underwood of the house, to letters and telegrams to Presidents Wilson and Taft, the correspondence covered every field of public policy and legislative practice.

Recommended Campaign Contribution. Frankly and quietly, Emery on the stand acknowledged that he had recommended a contribution to oppose Representative William H. Cullen for re-election, and told of personal interviews with leaders and members of congress in his attempts to prevent the naming of committees or prevent the enactment of legislation urged by organized labor.

The correspondence suggested a bitter feud between the National Association of Manufacturers and the American Federation of Labor in an attempt to secure control of the legislative agencies of the government. Discussing the recent sundry civil bill, with its provision prohibiting the expenditure of certain funds for the prosecution of farmers and labor unions under the Sherman law, Emery wrote to President John Kirby, Jr., of the association on March 7, 1912, after President Taft had vetoed the bill.

Will Democratic Motto Mean Anything? "I want to emphasize as hard as I can the importance of lining up for a referendum on the tariff, so that it will reach President Wilson, as it undoubtedly will, with the same provision in it. You will then have an early opportunity to denounce the addition of the democratic motto—equal rights for all and special privileges for none—because anything but a referendum on the tariff has surrendered completely or will merely turn over the department of labor.

I note, by the way your reference to a letter from C. W. (Post) on the question of a protest or the appointment of Wilson (secretary of labor), a

HIS OWN FAST DRIVING THE CAUSE OF DEATH

Verdict in Waterbury Police Joy-Ride Case—Censure For Officials.

Waterbury, Conn., Aug. 5.—In his finding tonight on the fatal joy-ride in the police car Saturday night, which ended in the death of a young man Robert P. He adds that it was provided by the revolution of the superior Commissioner Johnson's board of safety are severely censured for their failure to take any precaution or convenience." Johnson's investigation showed the coroner said that the car had been used frequently for private purposes by several of the commissioners during the months of June and July. Commissioner D. L. Lohay, also used it frequently during the same period.

VALUED JEWELS TAKEN FROM VERMONT MUSEUM

Theft Discovered at St. Johnsbury—Uncut Diamond and Rare Stones Gone.

St. Johnsbury, Vt., Aug. 5.—The Fairbanks Museum of Natural Science was broken into last night and a case containing valuable jewels, including a large uncut diamond and several rare stones, were robbed of its contents. Beyond the fact that a theft had been committed, the police gave out no information as to the meter and the trustees of the museum declined to discuss it. The amount of the loss is not stated, but is believed to be of considerable value. The jewels were taken from the museum when it was opened by the caretakers. The museum is a public institution and is owned by the town of Fairbanks, a former citizen of St. Johnsbury.

U. S. EXPORTS GAIN SHIPMENTS TO FIVE SOUTH AMERICAN COUNTRIES UP \$1,000,000.

Washington, Aug. 5.—A gain of \$1,000,000 in exports from the United States to five of the principal South American countries, Argentina, Brazil, Chile, Peru and Uruguay, in the first seven months of the year, is reported by the United States customs bureau. The increase is attributed to the fact that the United States shipped to the five nations \$12,000,000 of merchandise this year, as against \$11,000,000 in 1912. These exports are in shipments to all the countries named, except Argentina, where there was a slight decrease.

STRUGGLE OVER AUTOMOBILE RATES

Considerable Progress in Tariff Metal Schedule Made by Senate Democrats

BRANDEGEE'S AMENDMENT WAS LOST

Committee Fixes Duty at From 15 to 45 Per Cent., According to Value—Republican Senators Claim That All Foreign Cars will Come In at 30 Per Cent. Rate, in Parts

Washington, Aug. 5.—Senate democrats succeeded today for the first time in speeding up consideration of the tariff bill making considerable progress in the metal schedule despite protests of Senators Oliver, Smith of Michigan, Cummins and Smoot against many of the rates.

Chief opposition centered in the rates on automobiles, which the committee fixed at 15 per cent. on cars valued at \$1,000 or less, 30 per cent. on cars valued at more than \$1,000 and less than \$1,500, and 45 per cent. on cars valued at \$1,500 and over, and 30 per cent. on automobile parts. Senators Cummins and Smoot insisted that the rates on completed cars would be brought in at the 30 per cent. rate, in parts.

Fools Want Foreign Cars. Senator Thomas, for the finance committee, said he could see plainly that the other rates came in at 30 per cent. The other rates, Senator Cummins asserted, were a "mere pretense" and he advocated a flat duty on automobiles of 25 per cent. Senator Williams remarked "there are a lot of fools in this country who insist upon completed foreign cars, thinking they are better, and those rates are fixed who then." The rates were not changed.

Efforts of Senator Oliver also were unavailing to get the rates on iron products. His argument was that bar iron was more costly of production than the cheapest iron from any of the several countries, and that the rates on steel tubes and side arms 30 per cent.

Amendment by Senator Gallinger to substitute the Payne-Adlrich rates for the proposed rates on table knives and such cutlery was voted down, as to the committee rates of 25 per cent. and 30 per cent. prevailing. Senator Gallinger said he never under the existing rates domestic manufacturers had difficulty meeting foreign competition.

Other Rates Approved. The 25 per cent. rate on bicycles and motorcycles also was agreed to. Rates at 10 per cent. on blacksmith tools and bolts at 5 per cent., and nuts and washers at 10 per cent., encountered no opposition. Other rates approved were nut locks 25 per cent., chains of iron and steel 20 per cent., crocket chains 10 per cent., crocket steel tubes, pipes, etc., 20 per cent., steel blades and side arms 30 per cent.
