**MINNESOTA AGROUND ON THE JAPANESE COAST**  
Most of the Sixty First-Class Passengers on Board are Americans—No One in Danger.

Yokohama, Japan, Nov. 24—The steamship Minnesota, from Manila for Seattle by way of Hong Kong and Yokohama, went aground yesterday on a sand bank off the Naruse beacon near Iikosima, in the straits of Shimonoeki. Everybody on board is safe and apparently the vessel is undamaged. She is being lightened and it is expected she will be refloated soon. The Minnesota went aground in trying to avoid collision with a sailing vessel. Up to a late hour this evening tugs had not succeeded in getting her off. Most of the sixty first-class passengers on board are Americans.

The Minnesota was built at Groton. Her sister ship also built there was totally wrecked on the Japanese coast.

**RABBI WISE ON EQUAL SUFFRAGE**

Addresses Big Meeting in Town Hall Under Auspices of Local Equal Suffrage League—Advocates Equal Suffrage Because He Believes in Democracy—Rev. J. Eldred Brown Was Chairman.

Rabbi Stephen S. Wise of New York city addressed an audience which filled every seat in the town hall Monday evening on the subject of Equal Suffrage, under the auspices of the Norwich Equal Suffrage League. He presented strong, forcible arguments and his address made a marked impression on his audience.

The president of the local league, Mrs. William A. Norton, explained the purpose of a petition which was later taken through the audience for signatures. The petition is to be presented to the next legislature and asks for an amendment providing for woman suffrage. She then presented Archbishop J. Eldred Brown, rector of Trinity Episcopal church, as chairman of the meeting.

**Get Off the Fence.**  
Rev. Mr. Brown spoke briefly, stating that woman suffrage is coming, whether we believe in it or not. If it is a good cause, he said, and its arguments are true, then it is the duty of every good citizen to climb down off the fence and work for it. If, on the other hand, it is a bad cause, its arguments false and it would be better for the state should not become a fact, then it is the duty of every good citizen to get down off the fence and work against it. In either case it is up to the good citizens to get busy on the one side or the other. Rev. Mr. Brown also spoke in favor of the organization of a men's equal suffrage league in this city for the active support of the women in their cause. He introduced Rabbi Stephen S. Wise, who was greeted with a burst of applause.

Dr. Wise opened his remarks by stating that he was not a believer in woman suffrage but in equal suffrage. He made the distinction, he explained, because some men might think that the woman suffrage movement is the taking of the ballot from the men and giving it to the women. He said that the suffrage movement should not be judged or misjudged from certain things said of it or by acts of certain suffragists. Whether in sympathy with the movement or not, one has no right to judge it by the exceptional and isolated acts of violence on the part of some overzealous devotees of the cause.

**Through Suffrage to Larger Life.**  
If I thought, said Dr. Wise, that equal suffrage would lead to no more than votes for women, I would never have taken the trouble to come here tonight. The ballot is but a symbol, but that symbol stands for something real. So suffrage is no more than a symbol. I believe in the suffrage movement because I believe that woman must pass through suffrage and citizenship to the larger life which is calling to her today. I believe in the organization of women because I believe that a new era is coming to the life of woman in our time. One of the greatest arguments in favor of equal suffrage is the great moral and spiritual value that will accrue to us men as a result of giving citizenship to women. One cannot uplift the whole race by lifting half of it. In the Philippines efforts were made to educate the men for citizenship, but it was impossible without educating the women. The women are going to drag the men down to lower levels where we have left them. Men cannot drag women up, though women could lift the men. We will never reach greatness until men and women stand side by side together. Woman is the life giving, creating member of the race, and that is why the woman must rise with the man.

**No Longer Bound by Ancient Precedent.**  
Personality is a sacred thing, individuality a high inviolate quality. A man has the same right to love the free and independent life as man. She shall have the same opportunity and duty to rise to the same heights as the man. Woman shall become an absolute being, no longer bound by ancient precedent. Woman must cease to be solely a sex. She must have the same opportunity to lead a self chosen, self determined life and realize the same heights as man.

**Equal Suffrage Coming Before 1925.**  
The new women's movement gives women the same right to enter marriage under a new condition. She is now free to marry or not as she pleases, where formerly she was forced to marry. Is it not a question of the highest morals that woman be placed on an equal with man in every right and every wrong of marriage? In England a man must be habitually faithless before his wife can free herself from him, while does she do wrong but once he can sever the bonds which bind them. Whether you choose to bind man and woman for life or to divorce them on the slightest pretext, let the same law govern man and woman with no double standard. The new life and the new calling for woman demands the equal ballot. The cause is won and I am only here tonight to assist in the shouting. Before 1925 the fourths of the women of America will be citizens.

Dr. Wise referred to a well known French writer and opponent of the equal suffrage movement, who states that woman's chief charm is her mystery. "No woman can afford to lose this charm. The woman who demands the ballot loses her mystery and does not interest men. This means," said Dr. Wise, "that he thinks of woman only as a desire provoking animal. He would have her excluded from all rights and duties of the world that she might minister the more strongly to his passions. He would

put her back to the age of paganism. The important part of the question is not that the woman shall interest men, but that she interest herself. Is the woman who shrouds herself in mystery going to be the right kind of a mother? She may be a delightful occupant of a harem, but will she produce a strong race? If all women had homes and were free to remain in them this mystery might be all right, but what of the seven million taken from the home, these seven million perhaps would like to retain their mystery but in its place they would miss the love of their children. The first step to have the ballot, were we to make any distinction, would be the wage earners. It is not the woman who pays a big property tax every year but the woman who makes no money but her life, who needs the protection of the ballot.

**Women Will Unmake War.**  
Florence Nightingale instituted a new era for women in warfare and today we call them ministering angels on the battlefield. But woman is going to have a larger influence on war. She has borne children and they have been sent to the wars, she has nursed hell and the most terrible toll has been exacted of the woman. In the next generation we will have the beginning of the end of needless war. Men have made war but women will unmake war. They will refuse to raise sons for sacrifice.

In other words, be careful of it. The beauty of your hair depends upon its health. If it's beautiful, it's healthy. The Hugh Wallace Co. is one of the best known and most reliable manufacturers of Fur Coats in America. They buy all hides and furs in the raw and finish them in their own plant, and give a liberal guarantee with every Coat. This is what they say in this respect:

**"DRESSING AND DYEING"**

All our hides and furs are bought in the raw state and in the largest markets of the world—our Mr. Wallace making an annual trip to Europe for this purpose. We dress and dye them in our own plant, every detail superintended by men who are experts in their line—every endeavor being made on our part to give customers the perfect result of scientific work.

The dyeing of furs is probably the most important feature in the making up of these goods, the difficulty being to dye the fur without injuring or burning the hide itself. To produce a combination of materials which will do this is a science, and one which the head of our dyeing department has thoroughly mastered. The hides used in our Coats remain in their natural state, while the fur is colored in a beautiful and lasting manner.

**OUR GUARANTEE**

We guarantee our Coats for one season. By that we mean that if during that length of time the garment is found to be defective in material or workmanship, we will make good the defect free of charge.

This should prove a sufficiently liberal offer, for the reason that should there be any flaw whatsoever in the make-up of a Coat it will most certainly manifest itself during the first season's wear."

We extend a general invitation to the Men of Norwich and vicinity to visit our Men's Store during the display days — Tuesday and Wednesday, November 25th and 26th.

Bear in mind that a visit incurs no obligation to buy. You will be just as courteously received whether you come to look or to buy, and moreover, you will have the benefit of expert opinion as to the merits of the various kinds of Coats.
