PIMPLES COVERED ENTIRE BODY

Spread to Head and Formed Thick Crust. Burning Itching As if On Fire. Scratched Day and Night. Cuticura Soap and Ointment Cured in Two Months.

30 Grace St., Springfield, Mass. - "When my little boy was born he had a clean and clear skin, but at the end of a month I perceived that he was breaking out on the forehead and left arm with a quantity of red pimples which discharged and spread until they covered his entire body. It spread rapidly to his head and formed a thick crust which discharged. The trouble caused him a burning itching as if he were on fire. He began to scratch until the blood flowed in abundance; he scratched day and night without being able to sleep. I kept his hands, arms and legs bandaged for a year. You can imagine what a grievous mother I was."

"I tried three treatments which did not afford him any relief. He scratched himself until he was three years old. It was then I commenced to use Cuticura Soap and Ointment. At the first application I perceived that the itching was not so intense so I continued with assurance. At the end of two months my child was entirely cured." (Signed) Mrs. Victoria Anshar, Mar. 31, 1912.
