IN BANKING LINES THE PAST YEAR

Period of More Business Experiences For Several Financial Institutions in Both New London and Windham Counties.

The unusual record of the past year in Norwich has not been without banking features. These came in the shape of the First National Bank and the Windham County National Bank.

In the case of the First National Bank, a period of heavy withdrawal of deposits brought the emergency which demanded the suspension of business as the wisest way out of the difficulty and the bank was placed in the hands of the comptroller of the currency.

At the time of the suspension, the bank officials made the prediction that the liquidation of the bank should be accomplished without loss to its depositors. This prediction already seems in a fair way of fulfillment since the receiver in charge has up to date declared two dividends, totalling 75 per cent, and checks for this proportion of their accounts have already been delivered to the depositors.

In its statement published about two weeks before the receiver's report, the bank showed the sum of \$397,624.23 in individual deposits subject to check.

The difficulties of the First National Bank led to an immediate run upon the Windham Loan & Trust company, which was at once closed under a restraining order from the bank commissioners and has since been placed in the hands of a receiver.

During the year the Uncas National bank was compelled by its remarkable increase in business to seek larger quarters, solving this question to its own advantage by the purchase of the premises of the First National Bank building on Shetucket street and removing there November 17. In its new quarters it is admirably equipped to handle its business which has about doubled in volume in the past year, almost all of this increase coming in the last nine months of the year.

With the passage of the federal reserve act, just going into effect, one of the first two national banks to apply for federal reserve membership was the Windham County National Bank.

Major Timothy C. Murphy herewith addresses to the Norwich Bulletin a message to the Fathers and Sons of Norwich, looking toward a better and a happier New Year and themselves.

The movement started in Cleveland, O., when an influential group of Cleveland citizens united in a request to Mayor Newberry to issue a proclamation for a New Year's proclamation to their fathers and sons.

The Young Men's Association of Cleveland took the matter up with zeal and the mayors of 500 American cities will be asked to do the same.

It is not proposed to organize any new society, but simply to sensitize the father mind of our cities with the importance of fellowship with their sons in all wholesome forms of recreation, comradeship of fathers and sons.

Major Timothy C. Murphy herewith addresses to the Norwich Bulletin a message to the Fathers and Sons of Norwich, looking toward a better and a happier New Year and themselves.

FIRST AIR CAR IN NEW HAVEN YARD

Dr. M. J. Shields Gave Two Valuable Talks Wednesday-Another Today. With 190,000 miles of travel over the railroads of America behind it, since it left Buffalo on March 22 last, Car No. 3 of the first air department of the National Red Cross society rolled into the Norwich yard of the New Haven road Wednesday morning and was shunted off to a siding opposite the Main street station.

Dr. Shields will give a third talk this afternoon at 3 o'clock, and then the car will go along to Meriden, where it is scheduled for stop of days or two before the middle of the month, when it will be at Willimantic Jan. 19-20, and at Farmington Jan. 21-22. In the course of his day following the car the affable doctor will address 500,000 men throughout the country.

Dr. Shields' little talk Wednesday night told of the start of the Red Cross in 1913, and of its spread through the civilized nations and of the organization of the first air department three years ago to bring to the attention of managers and employees of railroads, mines, factories and large industries and private individuals as well the value of the conservation of life.

Your Hair Needs Parisian Sage

Use it as a Tonic-Banish Dandruff-Stop Falling Hair and Scalp Itch.

Parisian Sage is a delightful and invigorating hair tonic. It quickly penetrates into the scalp, gets to the roots of the hair, removes dandruff, and supplies the hair with just the kind of nourishment it needs to make it grow abundantly.

Parisian Sage has an immense sale, and here are the reasons: It is not injurious to the hair or scalp. It stops falling hair and itching of the scalp. It cleanses, cools and invigorates the scalp.

It makes hair that is thin, dull, matted or stringy, soft, abundant and radiant with life. It not only saves the hair but gives it that incomparable gloss and beauty you desire.

Parisian Sage is delicately perfumed, and is not sticky or greasy-and comes in fifty cent bottles at druggists or toilet counters.

Get a bottle from The Lee & Osgood Co. now-at once. Rub a little into the scalp-you will be surprised at the result. Delighted users pronounce Parisian Sage the best most pleasant and invigorating hair tonic made. Be sure you get Parisian Sage.

Joseph Irwin Lamb and Miss Florence R. Carpenter.
