

GUINNESS'S EXECUTION SET FOR 5.45

All Hope for a Reprieve for Condemned Men Has Been Given Up

SEND GOOD ADVICE TO THE EAST SIDE BOYS

Governor Glynn Hears Final Appeal of Attorneys, but Refuses to Interfere With the Executions—Men Still Stoutly Protest Innocence of the Crime—No Confession is Expected, Notwithstanding Rumors to That Effect.

Albany, N. Y., April 12.—The faint glimmer of hope that a reprieve might be granted the four New York gunmen passed late today. In the executive chamber of the despatched state capital Governor Glynn heard the final appeals of the attorneys, C. G. F. Wahle and H. L. Krings, for a stay of the death sentence and then for the last time refused to interfere with the executions.

For two hours from about three o'clock until five the attorneys pleaded with the governor. They made no appeals to his sympathies. Only the new evidence that was presented before Justice Goff in New York yesterday was presented. When they had finished, the governor and his legal adviser, John G. Saxe, retired to a private room and considered all the evidence.

Then the governor's attorneys were sent for, pale and a trifle nervous, but with a firm voice, the governor said:

"Gentlemen, I am sorry, but I cannot see any way clear to change my decision."

With their last chance to save the gunmen from the electric chair gone the attorneys walked slowly from the chamber.

"It seems the boys must die," Mr. Wahle said. "Unless the governor changes his decision before morning, they are doomed."

"Did he hold out any hope?" was asked.

"No," he replied, "on the contrary, he said he decided he was final."

Mr. Wahle then told of the nature of his appeal, emphasizing the fact that he thought the governor was very patient.

The governor seemed anxious to know every new fact in the case," he said, "and I tried to explain them fully. We presented all the evidence and affidavits produced before Judge Goff yesterday, set forth verbally the scientific facts of the case and then gave him and his counsel the affidavits for their own examination."

There is nothing for me to do but continue our duties as best as we can," he said.

"We shall telegraph to Des Moines and the governor's decision to report the governor's decision to the relatives of the condemned men."

Statement from Executive Chamber. A written statement issued at the executive chamber follows:

"Judge Wahle reviewed the application and the governor heard his for one hour and a half."

The application was renewed on the same facts that were before the governor originally and the affidavits of new witnesses presented to Justice Goff yesterday.

The governor replied that there was nothing before him to justify his decision, his legal adviser, John G. Saxe, after the attorneys had left the chamber, Mr. Saxe said to the statement said that the governor would have nothing more to say.

While the attorneys were with the governor, a report came that the mother and a sister of "Dago Frank" Crofieri were coming here to see the execution. It was reported that they bore a confession from the gunmen. Another who said they thought a letter from the governor might save the gunmen's lives.

When the governor heard this report, he said positively he would not grant the women an audience. He decided to see the women and talk with any of the relatives of the condemned men.

The women did not arrive, however, and Mr. Wahle said he did not think they ever had any intention of coming.

"If they should have come," he said.

ITALY TO FORESTALL RAILWAY STRIKE. Army and Navy to Be Used to Maintain Order.

Rome, April 12.—In addition to the army, the whole fleet will be employed to facilitate communications and maintain order in case a general strike is inaugurated by the railway employees on Wednesday next. In this way the government hopes either to check the strike or to minimize its effects. In its attitude the government appears to be supported by public opinion which is not favorable to that section of the railway men which is advocating the employment of strong coercive measures.

The various organizations of civil service employees have already planned to what points to erect barricades and are in readiness to take possession of various offices. They believe they have some of the army on their side. Meanwhile the army officers are under orders to join their regiments. Detachments have been concentrated at those places considered the most dangerous, especially in Milan and in Rome.
