AUTO UPSET ON

John W. Blumley Killed and Dr. F. D. Coles Badly Hurt—Machine Turned Over in Gutter by Side of the Road—Both Men Pinned Fast Under Machine—Dr. Coles Released by Passing Motorcyclist.

John W. Blumley was killed and Dr. F. D. Coles, veterinary surgeon, was badly injured at the top of Franklin hill on Monday evening about 10 o'clock when the runabout which the doctor was driving twisted into the gutter by the side of the road, turning completely over and pinning both men under the machine.

More than half an hour after the accident and after Dr. Coles had almost exhausted himself in shouting for help without making anyone hear, a motorcyclist headed for Norwich and stopped at the scene of the accident. He was able to get out. Meanwhile Mr. Blumley, pinned fast under the car by his side and head, was unable to get out.

The man with the motorcycle, which was riding in winter clothes, was riding, then departed saying that he could not wait longer as he was in a hurry to get home and could not help any further. The name of the motorcyclist was not learned.

Dr. Coles made his way to the Thomas Newman place, the foot of the hill where aid was obtained and word of the accident sent out by telephone, being relayed to the police.

When Undertaker Gager was summoned he quickly secured P. E. Pattison, a member of the local ambulance society, and made the trip to Franklin taking Dr. Howe in at Yantic. The ambulance was en route along the morgue in this city.

Dr. Coles also came back here in the ambulance. He was badly hurt and much unwell, but he refused to receive a doctor's attention until he had been taken to his home, but with wonderful nerve he would stay for a while at his office at 184 1/2 State street.

Mr. Blumley formerly was a pollster at Hopkins & Allen's and he resided at 184 1/2 State street with his wife and three children. He is a son-in-law and daughter, Mr. and Mrs. George A. Turner, who had lately moved here from No. 108 Boswell avenue.

When the machine suddenly upset both men were pinned fast under it. Dr. Coles said he thought it came from trouble with the steering gear. At the time the accident occurred the steering gear was all right and it seemed more likely that the car had veered through the gutter.

Dr. Coles and Mr. Blumley had been to the James Hyde place on Franklin and were on their way home. When the machine suddenly upset both men were pinned fast under it.
