AT THE DAVIS. Concert Programme and Photoplays. The programme that started the week at the Davis theater on Monday was an excellent grouping of the photoplays and the concert programme of Ed. I. Boyle. This talented artist was heard in Dorset the Old Songs, while his versatility was displayed in his whistling solo, The Mocking Bird, into which old favorites he introduced his double whistle with excellent effect upon his audiences. Fire and Sword was a collection of films that demonstrated the extraordinary lengths to which the artist would go in catering to the demands of the insistent public. Its desert scenes and the portrayal of the burning palace were highly realistic. Weather Weekly and the other photoplays made up a well balanced bill.

STYLES CHANGE IN A FLASH

"Styles change with such sudden flashes these days that it pays to lay in a wardrobe a few at a time," said a wise woman.

With fashion fluttering from one extreme to the other it keeps one busy to be up to date.

The safest guide to fashion's kaleidoscope are the advertising columns of The Bulletin.

The merchants are the interpreters of styles to the women of America, their advertising is their mouth-piece.

The modern woman finds as much real news and useful information in the advertising columns as she does in any part of the paper.

There is no advertising medium in Eastern Connecticut equal to The Bulletin.

HIT CHUTE BUT DID NOT STOP

Automobile Whose Number Was Not Learned Ran Down 1 1/2 Year Old Jewish Boy On Colchester-Norwich Turnpike Monday Evening—Skull Fractured and Slight Chances of Living.

At dusk Monday evening, about 8 o'clock, an automobile ran over a year and a half old Jewish child on the Colchester-Norwich turnpike about two miles above Fitchville, and with- out checking its speed, stopping, continued on its way toward this city. The people who were in the neighborhood did not realize the accident until the car was so distant that the number could be no longer distinguished. John S. Sullivan, former representative from Norwich, lives a short distance below the place of the accident to which his attention was called by shouting and crying. At first he thought the car was carrying four or five men. It was not lit up, and it was going fairly slowly. Mr. Sullivan said. Upon learning that the car was carrying a child, he telephoned down to police headquarters here, where Sergeant Allan C. Matthews was in charge and his brother-in-law, Mr. Sullivan, called out to all the men on the various beats reached by the signal system. Sergeant Kendall reached Officer John Kelly at the station, and the two men, with the aid of the chemical station and the officer got over to the corner of Washington and Sachem streets in time to get out into the road to see the car. The car, which contained six men. It was lit up, however, and when the police stopped them they said they were driving a little, although none of them was intoxicated. Ryan had one foot done up in a large bandage. A cow stepped on it a while ago and later, following the accident, one of the toes were amputated.

The child was attended by Dr. Edward J. Howland of Colchester, who came driving in the road in the darkness and that the occupants of the automobile did not see him. The fact that they did not increase their speed in getting away is in their favor, indicating possibly that they were unaware of the accident. It seemed at police station that the party had been drinking a little, although none of them was intoxicated. Ryan had one foot done up in a large bandage. Beautiful, Soft, Fluffy Hair An Aid to Beauty

Who does not love a head of pretty hair? Some women think it is a gift of nature and envy their more fortunate sisters. If your hair is not fluffy, streaked, faded, brittle, or full of dandruff, and if the scalp itches, do not think it must always be that way. For pretty hair is only a matter of care and proper nourishment of the hair roots. Hair is something like a plant—if neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful.

Parfian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long, thick, fluffy, soft and lustrous. It removes dandruff with one application and quickly stops itching head and falling hair. It is the ideal hair tonic and scalp treatment for men, women and children—contains nothing injurious and is delicately perfumed.

The Lee & Good Co. or any drug or toilet counter can supply you with Parfian Sage—it is inexpensive. You cannot be disappointed with the delightful and helpful hair tonic for the first few days' use will give the hair the beauty and charm of youth.

THE BULLETIN PATTERN SERVICE

A Stylish Frack for Mother's Girl. Blue lines with blue and white striped percale is here shown. The frons cross diagonally over a vest of the striped material. The square neck opening is finished with a round collar. The "set in" sleeve has a pretty cuff. The skirt is a four gore model, with tuck finish in back and front. The design is good also for gingham, lawn, dimity, challis, linen, percale, galles, serge, henrietta, tub or taffeta silk. White lawn with plaited fullness at the waist and eging would make pretty dress in this style. Or, if linen were chosen, the frons edges could be embroidered in scallops, and a neat design embroidered on vest and cuffs. The pattern is cut in four sizes: 8, 10, 12 and 14 years. It requires 3 1/2 yards of 46-inch material for a 10-year size. A pattern of this illustration mailed to any address on receipt of 16 cents in silver stamps.
