ZAPATA NOW MENACES MEXICO CITY

Apprehension is Felt at Washington Over Possible Operations of His Forces

CONSTITUTIONALIST FORCES HURRYING SOUTH

Emissaries from General Carranza are Now in Communication With Zapata, and it is Hoped to Bring Military Operations Under One Head—Carranza and Carbajal Will Soon Reach Agreement for Establishment of New Administration.

Washington, July 19.—While government officials here feel that the Mexican problem is rapidly shaping itself for solution and that the constitutionalists receive the carbide government soon will reach an agreement for the establishment of a new administration, much apprehension is manifested over the possible operations of the Zapatista forces. Dispatches from Mexico City on Vera Cruz which declared the followers of Zapata were dangerously near the capital are confirmed by advices to the state department. Officials here for some time have been cognizant of the strength of the Zapatista troops but the American government has been able to concentrate its troops with Zapata to prevent an attack on Mexico City. Emissaries from General Carranza are now in communication with Zapata and it is hoped through these parleys to bring the military operations of the revolution under one head. Constitutional forces are being hurried southward to help maintain order at the capital. The efforts of the American government are directed toward influencing quick settlement between Carranza and Carbajal so that stable government may be set up without loss of time. The constitutionalist agency here has delivered to the mediators a note rejecting the invitation for Carranza and General Huerta to meet in peace conference. It was written by Carranza before Huerta resigned, but delay was caused in delivery.

DOMINICAN REVOLUTIONISTS ARE BEING ENCOURAGED

By Reports of Serious Disaffection Among Government Forces.

Washington, July 19.—Revolutionists in the north of the Dominican republic are being encouraged by reports of serious disaffection among government forces in the south. The revolutionaries strengthened their beleaguered defenses at Puerto Plata and evidently are prepared to hold out indefinitely. A report yesterday from Captain Eberle, commanding the cruiser Washington at Puerto Plata, dated Friday night, said: "There was very little firing in Puerto Plata today and very little activity among the federal forces, but at 8 o'clock tonight federal forces fired on the coast and west side of the town for about half an hour. The revolutionaries are now under the protection of the Washington and held a conference with all the leaders. It is reported that General Ardan is approaching Puerto Plata with a large force of men and plenty of ammunition to reinforce the revolutionaries and raise the siege. A number of cattle and considerable produce was brought in from the country last night, making food more plentiful. Two British schooners arrived today from Turks Island to take away about 50 British Turks Islanders. The schooners are now under the protection of the Washington and passengers will be embarked in them tomorrow morning by our boats. Revenue cutter Monquin will leave San Juan, Puerto Rico, immediately for Puerto Plata to meet the Porto Rico revenue cutter. More than 50 Cuban refugees have requested their consular general to be sent home. The Washington will remain here for the present."

FIRE BROKE OUT ON STEAMER MASSACHUSETTS

Quickly Extinguished With Aid of New York Fireboats.

New York, July 19.—Fire which broke out on the steamer Massachusetts, of the Eastern Steamship company, owned by the New Haven railway, on her way from New York to Boston, with 200 passengers on board, had left her Hudson river pier for Boston, early last night, was extinguished quickly with little damage, by the help of municipal fire boats and of firemen whom they sent on board the endangering vessel to ply its fire hose. The fire was confined to the engine room, near the oil tanks of the steamer, an oil burning craft. There was no panic and the fire was quickly extinguished. When the fire broke out clouds of smoke began to shoot up from the Massachusetts and the fire boat and other craft put out to her assistance. The steamer did not stop her engines, however, and her own men and the assisting fire craft fought the blaze as it advanced under the steam. When the time she had reached the foot of 18th street on the way to Hell Gate the fire broke out. A wireless to the owners reported that the damage was slight. An hour's delay in the steamer's arrival at Boston might be caused by the fire it was said. A fireman with a hand torch searching for a leak in the oil pipes is believed to have caused the blaze.

Windsor Locks Man Drowned Off Indian Neck—Michael Callahan Lost Life at Stafford Springs.

Canaan, Conn., July 19.—A large number of citizens headed by J. Henry Roraback, chairman of the republican state central committee, searched for hours tonight in a vain endeavor to recover from the Housatonic river the body of a young man, 17 years old, of New York, who, it is supposed, was drowned some time Saturday afternoon. The body of the young man, Brown, is prominently connected with a fire insurance company in New York. He was on a bicycle when he was drowned. Friday morning he was out on a bicycle run, which was the last seen of him. When he did not appear at home, his father, Frank M. Brown, was organized. This afternoon Jacob Scherhorn, who was walking across the woods with his dog, came across the bicycle and nearby the boy's clothes.

WONDERFUL RESERVOIR FOR CANAL'S WATER SUPPLY

Gatun Lake Will Afford Ample Supply for All Emergencies.

Washington, July 19.—Resources of Gatun lake, the wonderful artificial reservoir which is the main dependence of the Panama canal for its water supply, are being tested. Many of the possible demands, after the most severe practical test. Although the amount of water which ran into the lake during the last dry season—January to April inclusive—was less than in any similar period for the past 22 years, being only 61 per cent of the normal collection, the lake was maintained at its proper elevation throughout that period.

The latter was communicated with by telephone and he said his car was in his garage. Deputy Sheriff Maher took charge of the car pending an investigation.

Struck Drowning Men with Oars

KEEPER OF PENFIELD REEF LIGHT STARTLED BY SIGHT

WAS A DRUNKEN FIGHT

Is the Theory Advanced by Fairfield Authorities—Assailant Captured, but Maintains Sullen Silence.

Fairfield, Conn., July 19.—Chancing to be on the platform of the Penfield Reef lighthouse at 7:30 o'clock this morning, George Manders, assistant keeper of the light, was startled by the sight of two men struggling in the water, not far away, while a third man in a rowboat was poking an oar at the drowning men, apparently trying to hit them on the head and submerge them. Unwilling to credit such a sight, Mr. Manders' first impression was that the men were playing a practical joke. But the water was not fooling—they were drowning—and the man in the boat kept poking Manders shrieked to some fishermen in a boat near by to call their attention to what was going on, and in the water went down, apparently for the last time.

Three Footpads Rob Cashier

GET AWAY WITH \$750 AT NOON IN NEW YORK

WAS BEATEN OVER HEAD

Thieves Worked Within Couple of Blocks of Policemen—Two of Them are Still at Large.

New York, July 19.—The question of whether the footpad fraternity, supposedly crushed by Inspector Pauro's detectives, can come back was answered yesterday by the capture of Edward Heffernan, cashier and bookkeeper of the Blair Tool Machine and Pattern Works.

Got Weekly Payroll.

Heffernan was knocked senseless in the hall of the loft building at 322 Greenwich street yesterday and robbed of \$750—the weekly payroll of the firm. The thieves also received his own money, his watch and chain, and a few of his papers. He is in St. Vincent's hospital now, suffering from concussion of the brain and scalp wounds.

One Captured.

As if to emphasize their efficiency the thieves worked at noon and within a couple of blocks of a policeman. Two of them are still at large, a third, who acted the part of a "lookout" is in custody. This man, who gave the name of Joseph Fitzpatrick, 281 Hudson street, was identified by Dr. Otto Schmitt, of Bellevue hospital, as concerned later in the robbery. Dr. Schmitt says Fitzpatrick ran out of the building directly after the crime.

Within Ten Feet of Noonday Crowd.

The boldness of the robbery, which was committed within ten feet of the noonday crowd, was emphasized by the fact that the thieves worked at noon and within a couple of blocks of a policeman.
