Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes, because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and oftentimes get glasses that they do not need or which, after being used two or three months, do their eyes more injury than good. Here is a simple prescription that everyone should use:

5 grains Opton (1 tablet), 2 ounces Water. Use three or four times a day to bathe the eyes. This prescription and the simple but none system cleanses the eye, cleans, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a new wear of this good for the eyes and contains no ingredient which would injure the most sensitive eyes of an infant; for the aged, Lee & Osgood or any drugist can fill this prescription promptly. Try it and know for once what real eye comfort is.

Comfortable, easy fitting Trusses at hard time prices. We will guarantee to fit you and give you perfect satisfaction or money refunded. See our window display. Elastic Hosiery and Crutches also.
