Education, not information, or even the training of the mind holds first place, but the teaching of ideals. But there is something beyond all these and that is the work of the spirit. Open our souls to the influence above so that we shall go on into possession of a more energy which makes us masters of ourselves and circumstances. The nations of the world have education yet fly at each other's throats. We are greedy and more must look to something deeper than morality even. The nations need a change of heart. Just simple religion is what we want to live by. Jesus is that word of God. So, if we want life we are to find it in Jesus. Let the mind that was in Him be in us and this life will be ours.

Afternoon Session. The afternoon session was opened by a solo by Mr. Brewer. The King of Love, My Shepherd, was sung, then the Rev. F. M. Hollister of Mystic spoke on The Country Church as a Factor in Community Building.

There are three stages in all institutions, he said, pioneer, development, service. The country church needs much hope and encouragement, but difficult owing to isolation and conservatism. The country church stands for the highest and best and should be supported above all else. Spirituality is whatever ministers to the spirit of man. This is the job of the country church, to minister to the spirit and it is a big one. We are bound to build communitywise. Men have got to do something together. The business of the country church is to make it possible to live together. The Christian church ought to make the schools effective to reach out and sanctify all life and lay all at the feet of Jesus.

A discussion followed, participated in by Mr. Child, Mr. Fuller and Miss Wilbur. A hymn was sung and the conference closed with the benediction by Rev. Mr. Hollister.

Democrats to Fire Salutes. The democracy of Norwich are making preparations to fire a salute of 100 guns at the news of the election at Chicago is received. Contributions flowed in freely through the day, yesterday, and it is reported money enough will be raised today to insure the salute. It makes no difference who is nominated; they are sure to burn the powder.

Too Many Idlers at Boat-Train. One of the many nuisances which prevail in this city is being demonstrated through the Norwich and Worcester railroad depot, when the boat-train comes in. They crowd up close to the train, rendering it difficult to force entrance to or exit from the cars.

The schooner Quickest is now lying at the dock having been overhauled and repaired for a trip south. The Quickest is one of the most remarkable vessels afloat. On a recent trip through Vineyard Sound, one of the passengers on hearing the lead, found twenty-two fathoms of water in his water cask. Her last trip was to Holmes Hole with a society of missionaries, old Holmes and they all came back in her with the exception of one, who, in company with a rusty gun and a carpet bag, was left on the island.

Rufus Derby has in his yard on Franklin street a dahlia, measuring 11 feet 3 inches and still growing.

Franklin Man Draws Attention. The Norwich Tribune had the following flattering notice of the Hon. William M. Converse of Franklin: Hon. William M. Converse of Connecticut is interested in the big gun of the New England delegation. Mr. Converse is a rough, uncouth specimen of the Connecticut Yankee, who has literally worked his way up from boyhood, as many a Yankee has done before him. His capital at the outset was a dollar. He is now worth half a million.

On Tuesday next the First Brigade, Connecticut State Militia will encamp at Norwich.

Tobacco Cultivation Promising. Sept. 5, 1864.—number of fields of tobacco and their cultivation in this vicinity, and the crop promises well. Mr. William Williams, foreman of the Wauregan Steam Fire Engine Company, has raised the big gun of tobacco fair to be exceedingly profitable.

Twenty-Six Men Enlisted. Twenty-six men were accepted and sent forward at the Provost Marshal's office.

The report of the capture of Capt. Henry Lee of New London, of the Fourteenth, is confirmed.

The Merchants Bank has declared a semi-annual dividend of 4 per cent. Quota of District Lessened.

Sept. 3, 1864.—Capt. Kibbe received yesterday from the Provost Marshal general notice of the assignment of the quota of this district. The quota has been reduced from 1070 to 1601. The assignment for Norwich was 272, for Groton 100, for Stonington 110, Windham 62, Killingly 71.

Camp Meeting at Willimantic. The Methodist Camp Meeting commenced near Willimantic on Monday, and continues all the week.

The schools in the Central District will commence on Monday, the 5th.

The steamer Ullysess makes the last excursion of the season to Watch Hill today.

Sherman in Atlanta. We doubt if any intelligence has spread over the wires since the announcement of the capture of Fort Hudson, that so thrilled the country, as will this of the occupation of Atlanta by General Sherman. The simple fact that the object of the point of General Sherman's long, brilliant and successful campaign is in our possession is enough of itself to largely reinforce our hopes.

POINTS FOR HUNTERS. Where Connecticut Laws Bear on the Men Who Go Afield.

The hunting season for ducks and shore birds in Connecticut opened Sept. 1, and it is well to call the attention of those who are hunters for that time that they should carefully learn just what birds may be killed under the name of game birds.

Under the federal law the protection of a number of years and the killing of them will be severely punished. That the hell divers or dippers are not ducks but grebes and protected at all seasons as well as the loons and must not be killed.

That the fish hawk or osprey and the heron, both large and small, are protected, as well as the marsh owl, often seen over the salt meadows in the fall.

Also that there is a difference between the state and the federal law regarding the snipe family. Under the federal law the little peeps, the spotted, ring neck and other small snipe are protected.

Each year a number of persons, through thoughtlessness or wantonness, get into difficulties by shooting some of the above mentioned protected birds.

This sentiment no longer tolerates this wanton destruction of wild life, for the bird so thoughtlessly killed, to be picked up and looked at, and tossed aside, very often has been a source of pleasure to a large number who have been watching the bird for days.
