HIGH SCHOOL TO OPEN.
Fifteen Rooms Will Be Available To-day—Laboratory Equipment on the Way.

In spite of the various delays and drawbacks, the Windham High school will open this morning for the first year of the school year and will be in a position to accommodate 400 students, the usual enrollment at the beginning of the year.

school building committee, represented by M. Eugene Lincoln, permitting taking over the building in its present unfinished state in order that the town might use such parts as were available, and this had been raised by the court, preparations were at once made for the opening of the institution without delay. On Sunday, after several days of strenuous work, the last seats were put in position and the seating of the high school in readiness for the incoming students.

Naturally, conditions will be somewhat crowded at first, but not enough to interfere to any great extent with teaching efficiency. And as it is believed that about one room a day can be added by the contractors, the congestion will speedily be relieved, particularly when the large hall becomes available for use, as is expected in a few days.

Principal Case has learned that the laboratory furniture and other equipment will be here in ten days. It will take an equal amount of time to set them up, but as the laboratory work in the several courses is accompanied by class room exercises, the delay will be no inconvenience.

On the opening day the aim of the teachers will be merely to get things into running order and so there will be only a short session.

The papers in the case allege that the defendant, between the dates of Feb. 12, 1914, and Sept. 8, 1914, committed adultery with Callolette and that from Sept. 8, 1914, up to the date of the writ, Sept. 8, 1914, he was guilty of intolerable cruelty to the plaintiff, who asks for divorce, alimony and a change of name.

Thread Company's Fire Brigade Has Clambake.
The annual clambake of the American Thread company fire brigade was the moving cause of a joyful gathering of members and guests on Sunday.

The annual clambake of the American Thread company fire brigade was the moving cause of a joyful gathering of members and guests on Sunday. The party, numbering a couple of hundred, had a jolly outing and a fine feed with the fire fighters as hosts. Mayor Danielson, Fire Chief Thomas P. Foley, Town Clerk Frank P. Penton and ex-Fire Chief Wade U. Webster were among the guests of honor. By the time the clambake was over, the members of the brigade who had it in charge the pleasure makers had developed enormous appetites by reason of baseball, quill pitching and other diversions. The married men lined up against the single but the reports that came in from the battle appeared to have been censored. The married men at any rate claimed victory. The outing was held in a grove beyond the No. 4 mill, and place, time and circumstances made the bake a splendid success for the fire brigade.

Cost Pocket Fire Loss Small.
An embarrassing though not a large fire broke out Saturday afternoon on Church street in the pocket of a coat worn by ex-Foreman Leo Thompson of the Hilltop Hose company. It took the services of no other than the Hilltop Hose company, which succeeded in extinguishing the blaze, which must have been active, judging from smoke and smell. Mr. Thompson was walking down the street with Nelson A. Daniels, who is still another fireman, being an assistant engineer in the Willimantic department, when he dropped a clay pipe he had been smoking into his pocket. They knew nothing until ex-Chief Webster gave the alarm.

BOY'S FOREHEAD GASHED.
Victor St. John, When Wagons Clash, Runs Into Bicycle.

Victor St. John, aged about 7 years, who lives with his parents in the North Wood street, was riding a bicycle on Saturday forenoon when he received a bad gash on the forehead about 11:30 Saturday forenoon when he became involved in an accident on Main street. The cause was the collision of a motor car with the bicycle. As the little fellow was coming over the crosswalk from near Woodward's building a motor car, now a grocery store company, locked wheels with a milk wagon of W. F. Day. The St. John boy was so much frightened by the crash and, hurrying to get out of harm's way, ran directly into a bicycle ridden by W. J. Craig. The boy's head struck against the handlebars or a nearby hydrant, probably the latter, and an ugly wound was opened in his forehead. The wound was treated by Dr. George M. Burroughs for treatment and the physician was obliged to take three stitches to close the wound. The boy is not seriously injured and will probably be well within a few days. Witnesses of the accident say that it was quite unavoidable under the circumstances.
