MAKING SUCCESS AS FALLS MILL AGENT. American Wool and Cotton Reporter Praises Arthur C. Brown.

In an account of the recent annual meeting of the Falls Co., the American Wool and Cotton Reporter gives very complimentary mention of Arthur C. Brown, the present agent and superintendent, who is a member of the Norwich Board of Trade and a 32 degree Mason.

The Reporter says: "It was voted to appropriate \$15,000 for immediate expenditure for more new machinery and equipment. \$10,000 has been expended during the past year on new equipment. This further appropriation for more machinery will put the plant on the same company in excellent shape, which will materially increase the output of the plant at a minimized cost.

The showing was very satisfactory; output of the plant all sold and good future business booked. The improved condition of the plant and the quality of the product turned out speak well for Arthur C. Brown, the present agent and superintendent.
