

PIMPLES DISFIGURED FACE AND NECK

Would Irritate and Burn. Ashamed to Go Out. Could Not Wear Collar. Could Not Sleep at Night. Cuticura Soap and Ointment Healed.

4008 Third Ave., Brooklyn, N. Y.—"I was troubled very much with pimples and blackheads which first began on my forehead then on my neck. [They would irritate and I would scratch them which would make them bleed and burn something awful. My face and neck were disfigured and I was ashamed to go out; I could not wear a collar. At night I could not sleep because they would burn and itch so bad.

"One day I happened to see an advertisement in the paper and sent for Cuticura Soap and Ointment. Just one week after using the Cuticura Soap and Ointment I found great relief. I would wash my face and neck with the soap and use the ointment on and wash off in a few minutes. After using Cuticura Soap and Ointment several months I was completely healed."

for a circus to show here on that date. Having fixed in his mind that Memorial day would fall on May 30, as it really does, he gave no thought of objection to a circus being in town on the 31st; otherwise no permit would have been given to the show to come here while the patriotic societies were engaged in paying the annual public tribute to the heroic dead.

Major Macdonald will arrange, however, so that there shall be no circus parade during the time that the Memorial Day parade is on, and he may decide not to allow the circus to parade, but this has not been decided. Every precaution will be taken to have the day as quiet as possible.

PUBLIC PLAYGROUNDS MOOTED. Project to Provide Safety and Diversion for Children During Vacation.

A new movement to provide playgrounds for the children of the city during the vacation period has been undertaken by a group of the alert and progressive ladies of the city. As yet the plan is in an embryonic state, but the situation is being looked over, prominent citizens interviewed and the prospects investigated.

The important proposition, it seems, is to secure suitable grounds. A section of the High School field is under consideration and suggestions for the use of the federal postoffice site at the corner of Grove and South Main street has also been heard. Another grounds thought of is near the plant of the Manhasett Manufacturing company.

Many children of the city have no suitable place to play or only dangerous places, the streets, for instance, in which they are long and weary when they are free from the cares of study. In many places the public playground idea, developed along carefully laid outlines, has done away with much of the uncertainty as to where children are and what they are doing during the vacation periods of each summer. It is toward such an end that the ladies interested are to strive.

They propose to secure a ground, preferably one where the children at present are long and weary, and so equip it as to make the place attractive for children and safe for their romping. A section of the High School field would be preferred and this matter will be referred to the town school committee.

Supervision is proposed over the activities of the children at the playgrounds and Miss Edna Chapdelaine will, if the plan is successful, be seen in the charge of the playgrounds.
