KILLED BY AUTOMOBILE

IN WEST MAIN STREET.

Milton Carolan, 4 1-2 Years Old, Jumped from Behind Ice Cart in Front of Machine.

About 1:30 o'clock Tuesday afternoon Milton Carolan, 4 1-2 year old son of Mr. and Mrs. Morris Carolan, of No. 31 West Main street, was struck and almost instantly killed by a touring car when he jumped from behind an ice cart in front of the machine.

The accident happened almost in front of the child's home.

Mr. and Mrs. Farnham, with their two children, were on their way to Norwich, and as they were driving through West Main street they met an approaching ice cart. Not knowing that there were children following in the wake of the ice cart, the driver did not slacken his speed, and when the boy darted from behind the cart he was struck and killed.

Mr. Farnham said the first thing he saw was the radiator strike the child, so suddenly did he die in front of the touring car.

Mr. Farnham immediately stopped his car and picked the child up in his arms, carrying him to the place of residence of Mr. and Mrs. M. V. B. Pierson, where he laid him on a settee. Mrs. Pierson laid the child down a tremor passed over his body and death came.

A hurry call was sent in for the automobile accident by Dr. Louis T. Cassidy. Dr. Cassidy hurried to the scene of the accident, arriving there within two minutes after he received the call. Dr. Cassidy made a superficial examination and satisfied himself that the boy was dead. No bruises were found on the body, but there were two wounds on the head and a flow of blood from the mouth, nose and ear and an apparent fracture at the base of the skull.

Medical Examiner Rush W. Kimball was called and the body was taken to the morgue at the corner of Church and Algonquin streets to remove it to their morgue. An autopsy was held at the morgue and death was found to have been caused by a fracture at the base of the skull.

The child was in the habit, it is said, of climbing on the top of the ice carts as they passed the house and was continually playing in the street.

Milton Carolan, is employed as a teamster by Morris Sussman.

FIGHT OVER DOCTOR'S TESTIMONY

Defense in \$10,000 Automobile Suit Tries to Exclude Opinion as to Lockjaw Infection—Administrator of Estate of Arthur Desmarais is Suing Jacob Gordon—Man Died After Injuries Last August at Thames Square Corner.

The attempt to have Dr. Louis Cassidy answer a question as to his opinion as to how tetanus, or lockjaw, infection entered the system of the late Arthur Desmarais was engaging the attention of the superior court at the time of adjournment here on Tuesday afternoon in the trial of the suit of C. A. Gager, Jr., administrator of the estate of Arthur Desmarais, against Jacob Gordon.

The suit is brought for the statutory sum of \$10,000. In the complaint it is alleged that on August 18, 1914, Jacob Gordon was running his automobile on West Main street at Thames square at a greater than reasonable and proper speed, exceeding 25 miles per hour for a distance of more than one eighth of a mile, in consequence of which it ran into the back of the automobile of Desmarais and causing the injuries from which Desmarais died on September 3rd.

Dr. Cassidy was the last witness on the stand on Tuesday and in the course of his testimony as to the injuries to Desmarais, he testified that death at the Backus hospital occurred from tetanus, or lockjaw. Attorney J. J. Desmond, who with Attorney James Roman of Salem, Mass., is counsel for the plaintiff, had the witness describe the lockjaw germ, which the doctor said was still being found in soil or in road beds where manure had been scattered and which secured entrance into the human system through an open wound into which dirt has been introduced.

When Attorney Desmond asked for the doctor's opinion as to how the tetanus germ had been introduced in the case of Desmarais, Attorney Hadley A. Hull objected, saying that the question ought not to be allowed unless it could be shown that the doctor had been given every opportunity for infection which might have occurred in this case.

The attorneys argued at length over the matter and the judge, Judge Greene offered suggestions as to what might be shown and when court adjourned the matter was left to be argued by Attorney Desmond to prepare the way for claiming the admission of the doctor's opinion.

Attorney C. J. James is counsel with Attorney Hull for the defendant.

When the trial of the case was called on Tuesday morning by Judge William S. Geer, John T. Clark, Daniel F. Fugate, John W. McMillon, Charles C. Zabriske, Edwin R. Scott, Preston, Myron R. Abel, Colchester; John A. Perkins, Lebanon; Charles H. Phillips; Jesse C. Phillips; Lashon; Charles A. Barber, Voluntown.

Civil Engineer Charles E. Chandler was the first witness called, explaining a colored map of the corner of

West Main and Thames street where the accident occurred on the evening of August 18 and two men were struck by the automobile driven by Jacob Gordon.

Herbert H. Brown, who was caught and pinned up against the back of the Gordon automobile at the same time as Desmarais was hurt, testified regarding the accident. He was badly hurt about the legs at the time and was in the Backus hospital for a considerable time.

Lindsay G. Smith, the playwright, who was an eyewitness of the accident, followed Mr. Brown on the stand and testified that he saw the accident from a distance of more than one eighth of a mile, in consequence of which it ran into the back of the automobile of Desmarais and causing the injuries from which Desmarais died on September 3rd.

RUTH TABLEUX AND ADDRESS ON ZIONISM

Before Norwich Societies—Dr. George Cohen of Hartford Speaks for Return to Palestine.

An inspiring address by Dr. George Cohen, Ph. D., of Hartford and the presentation of tableaux upon the Biblical story of Ruth were given on Sunday evening at the crowded house at the Colonial theatre under the auspices of Norwich camp, No. 75, Order of B'nai B'rith, of the school and the United Zionist clubs.

The address, given in both Hebrew and English, was the subject of Scientific Zionism and proved particularly interesting during the hour in which Dr. Cohen spoke. He was introduced by charitable and prominent members of the education committee of the camp.

Seven Factions. Dr. Cohen pointed out seven Jewish factions, all trying to solve the Jewish problem. Of these he described first the orthodox Jew, who maintains that the Jew is everlasting, indestructible, and that no power on earth will vanquish him, and salvation and restoration will only come from God. The returned Jews argue that we are happy here in America. We have our temple and our rabbi. Why should we worry for the Jews in Russia and Roumania? Twenty-five years ago they declared to us that we were to relate to Palestine and Zion and proclaimed that the United States is Palestine and Washington is Jerusalem.

Another faction is the assimilationist who says assimilate, amalgamate; in other words, cease to be Jews and there will be no Jewish problem. Such a proposal was never made to any other nation, and it is to themselves. Then there is the socialist who tries to solve the problem by having the Jew to accept his doctrine, but that is not the Jewish religion. It might not be in the long run, and it might not be, and why should you wait for an experiment?

There is also the territorialist, who says take your Uganda which is offered by the British government, but that was offered by Jacob H. Schiff in this country. The territorialist idea was expounded by Israel Zangwill, and after the Zionist congress in London he announced that territorialism is bankrupt. And Jacob Schiff had to give up his Galveston bureau for the same reason.

It has remained for the Zionist to offer the only correct solution of the Jewish problem, and to acquire legally again the land that formerly belonged to us in Palestine. Made sacred by our prophets, Palestine is no mere dream, it is a reality. There are 41 prosperous colonies that have grown up in the past 20 years, and more are being developed.

Colonies Self Supporting. Among other things that Dr. Cohen said was that if we didn't have the Jewish people, who are there to die, there would have been no need for shipping foodstuffs to Palestine because the Jewish people would have grown up in the past 20 years, and more are being developed.
