An Exceptional Significance. This particular Memorial day has for all of us an exceptional significance. We meet today with the knowledge that eleven nations of the civilized world are waging war upon one another and we are confronted with the contingency that at any time our own people may become involved therein.

Words are inadequate to express the appreciation we feel for all that you accomplished, but as we stand here, uncertain of the dangers of the morrow, let us in silence register in our hearts a solemn vow that what you men helped to save and preserve, we will ever cherish and defend, let the cost be what it may.

Your trials, your experiences of the past are invaluable today as lessons to determine the problems of the present. General Sherman spoke truly of war as hell, because in those four years it brought in its train all the attributes of hell—pain, poverty, destruction, vice, ignorance, destitution—while the fifty years of peace have
