

Real Worth vs. Low Cost

If you asked your butcher for a porterhouse steak and he handed you a cut of the flank and said, "This doesn't cost as much and is just as good," you wouldn't believe him, would you?

Yet the butcher's statement is just as truthful as the assertion that inferior baking powders made of alum or phosphate of lime are as good as Royal, which is made from cream of tartar.

Alum is a mineral acid salt, declared by many medical authorities unsafe to use in food.

Royal Baking Powder is as pure and wholesome as the vineyard grapes from which its cream of tartar is derived.

The only reason for using such substitutes as alum and lime phosphate is because their cost is less to the manufacturer.

For nearly ten years the mails for Watch Hill, Pleasant View and Weekapaug, and for North Stonington, have been carried by the contract electric cars, and at a loss to the operating companies, as on the Watch Hill and Westley lines the contract is only for the summer season, during which time the mail is of considerable magnitude. The trolley company not only carried the mail matter, but was required to deliver other mail from the several postoffices, which meant considerable labor and consequent disturbance to scheduled traffic.

President R. W. Perkins notified the postoffice department May 1 that the trolley lines would carry no more mail under the contract that expired June 1 after that date. Postmaster Butler has received no advice as to what to do with the mail matter under the circumstances except that he has been advised that the contract to deliver and receive mails between the postoffice and the trolley had been awarded to Thomas H. Chubb. The trolley companies were paid at the rate of three cents a mile for carrying, delivering and receiving the mails, traversed about 30,000 miles during the year and received between \$800 and \$900 for the entire service, or about \$3 a day.

While the trolley management has served ample notice on the postoffice department of cancellation of contracts upon termination June 1, President Perkins has informed Postmaster Butler that the mails will be carried for a reasonable length of time pending new arrangements, as there is no intent on the part of the trolley company to disrupt the local postal business.

Give the Kiddies all they want of Clicquot Club GINGER ALE. THERE is no purer, more wholesome hot-weather drink than this altogether delightful beverage. It is perfectly safe to drink when you are overheated, as the mild stimulus of the ginger overcomes that "ice cold" shock. Clicquot is real ginger ale, made of the best Jamaica ginger, the juices of limes and lemons, cane sugar and the cold water that bubbles up from the deep, rock-bottom Clicquot Springs. This water is mildly laxative. Each bottle holds enough to satisfy several small-sized thirsts, or two large-sized ones. Show your skill in mixing drinks. Clicquot Club Ginger Ale mixes attractively with almost anything drinkable. Keep a bottle or two on ice, and let the children "treat" at home. Sold by Good Grocers and Druggists—Buy It by the Case.
