IS ON BATTLESHIP IN DARDANELLES.

Mrs. Lewis H. Burdick of Fitchville Receives Letter From Her Brother.

Mrs. Lewis H. Burdick of Fitchville has received a letter from her brother, Harry, a British sailor who is taking part in the bombardment of the Dardanelles. The envelope in which the letter arrived is marked passed censor and postmarked London.

No indication of the exact location of his ship is given other than the Dardanelles. He says: "We are now taking part in the bombardment of the Dardanelles, but I am sorry to say we are not allowed to disclose all we wish to about the operations, so my letter must necessarily be brief on that point. The task we are engaged upon will surely be a tremendous one, but we are not unduly worried by our loss of life, but we shall win, we are sure, simply must win and I fear that it is then that our losses will be realized more vividly, though it must be said that our losses to date are comparatively light."

We had rather a sad accident on board here a short time back, due to an explosion which resulted in the death of a young man. The whole number who were below at the time it was a boiler which burst. It plunged the ships company in gloom \* \* \* and on the following day we proceeded to sea to bury them. You can't imagine how impressive is a naval funeral at sea \* \* \* There is that air about it which makes every other form of service incomparable. I do not wish to attend any more, though one never knows what may happen, does one?"

We had very cold weather here at first and I think we felt it even more keenly than the remainder as we had been in tropics for the greater part of our commission. We had some very nice gifts of woollens from England, which we can assure you were very acceptable, although there was not enough for all.

It is cold at night even though it has been sunny in the day. Without plenty of warm clothing it is simply freezing during the night watches."

RENEWED ACQUAINTANCES ON WESTERN TRIP. A. H. Brewer and Party Saw a Number of Former Norwich Residents.

Having seen a number of Norwich people while they were on a western trip of seven weeks, Arthur H. Brewer and his party, Mrs. William A. Noyes, Mrs. Willis Austin and Mrs. Lucius Briggs, have returned from their trip to the California expositions.

Brewer's sister, Mrs. Robert Bois, of New York, was also of the party, but another sister, Mrs. Walter L. Wellington, of New York, was detained from going at the last minute. The entire trip was without a pleasant incident and all enjoyed every minute of the time. The first former Norwich people they saw were at Los Angeles. Dr. H. Bishop, of Burnham and Charles L. Burnham, were there entertained with the fine hospitality characteristic of all California people.

His cousin, Rev. W. A. Brewer, of Burlingame, Cal., and Lyman Brewer, another cousin, of Fresno, Robles, and the son and daughter of F. H. Brewer, a former Norwich man. It was his intention to call on Mrs. Benjamin E. Sibley (formerly Mrs. F. W. Brewer) in Bialah, but he did not have time to make that side trip.

New Use for Mercury. A scientific investigator of Europe has discovered a method of destroying fungus disease and household pests by the use of mercury. In enclosed spaces the mercury is employed in the form of vapor. In other cases it is injected in metallic form directly into the circulating fluids of the plant. The growth of the plant is not only not disturbed, but is in most cases actually assisted.
