**Rosebuds Invade Orchards.**

**Bank Consolidation Soon.**

seph's school was especially worthy of the work of the children in crayons, the cut work and sewn work were very good. Across two rooms transverse lines of tiny Japanese lanterns, the work of little hands, were strung with splendid effect. Fourth grade pupils exhibited the apron, cover and sewing bag which is the work required for that grade. One child, 8 years of age, had a complete set, with the sashes fairly regular and the work very neatly done.

The regular exhibit of selected papers was made in all the grades. In English there were two sketches and two blackboard sketches made by Stephen Kulikosky. The boy's work, though untutored, is wonderful and indicative of marked natural artistic ability.

In St. Mary's school special attention is given to an exhibition of penmanship. Fifteen certificates have been received by pupils of the school, and in both schools very clever work
