HENRY HOLLINGSWORTH KILLED IN ACTION. John Hollingsworth Receives Word of Brother's Death in English Army. John D. Hollingsworth of No. 432 Boswell avenue, engineer for The Bulletin company, has received word that his brother, Henry Hollingsworth, a private in the English army, was killed in action on May 21. Henry Hollingsworth was employed at the Richmond Radiator company here about four years ago.

The most sorrowful tragedy of this terrible war is the severance of husbands from wives and fathers from children, never to meet again in this life. The sympathy of all must go to the widows and the fatherless. A particularly pathetic case is that of Mrs. Hollingsworth, of 13 Turner Lane, Ashton, who has received official information that her husband, Private Henry Hollingsworth, of the Special Reserve of Lancashire Fusiliers, has been killed in action. Private Hollingsworth was 21 years of age, and formerly was employed at the National Gas Engine Co.'s works as a brass finisher, but latterly he had been working at Old Trafford. He was formerly in the army, but was brought out. He joined the Lancashire Fusiliers on August 27th, and went out to the front in May. He was killed on May 21st. He was a member of St. John's Sunday School and of the Y. M. C. A. He leaves a widow and two children.

On his departure for France he wrote a touching message to his wife and children. He wrote: 'So good, hoping that we shall not be long before we are united again. Remember that it is every man's duty now, and mine, to do our best for our country. I know you will upset yourself, but try for my sake to be brave. You must not write to me till you have another letter from me. And I will write every week, or often if possible. I cannot forget the happy and comfortable home we have worked for and share together. I am in the best of health, and I hope you and the children are the same. God bless you all. I know that you will be very good to your mother. I think that you will. I will not be gone long. I hope and look after Hilda, Joe, for I know that you will be a good mother, so be good children. So good night, Joe and Hilda. Kiss your mother for your dad, and may God guard and keep you from harm. So good night and God bless you.—From your ever loving Father.'

CATARRH GERMS EASILY KILLED. By Breathing Into Throat, Nose and Lungs Pure Antiseptic Air. If you have catarrh and want to get rid of it, you must kill the germs which cause the disease. The best known way of destroying Catarrh germs is to breathe into the air passages of your nose and throat and lungs the pure antiseptic air of Hyomei (pronounced 'High-o-mey'). Hyomei is made from purest oil of Eucalyptus combined with powerful germicidal, healing, antiseptic and germicidal ingredients. It breathes in through a little pocket inhaler which Lee & Osgood and other leading druggists in Norwich sell. It is a most refreshing with every complete treatment sold. Every time you inhale the sweet, fragrant air of Hyomei, you are drawing into your swollen, inflamed, germ laden membrane a medicated air which will not only reduce all the swelling and inflammation and open your clogged nose and throat, but will also positively and absolutely destroy every trace of Catarrh germ life it reaches. Druggists are so sure of the Hyomei that they invariably on the positive guarantee that money will be refunded if successful results are not secured from its use.
