TRIED TO OPEN TILL

The Bell Rang and a Daylight Theft
Was Failed.

Two Greenville boys, 13 and 16

were brought in by Sergt.
Kane and taken to the police
station at 11 o'clock Wednes-
day night to be presented in court
this morning on charges of attempted
theft. A couple of weeks ago
youngsters went to the shop of H.
Bishop on Seventh street by a little party. While the
man in charge was getting it, they
made an effort to open the till. There
was a bell on the till and they
desisted in their attempt. Neither did
they wait for the party.

PERSONALS

William G. Krasinski has been in
New York on a business trip.

VARIOUS MATTERS

The veteran Old Fellows' associa-
tion will visit Ocean beach on the
24th.

A Sunday School picnic for St.
James' Episcopal parish at Poque-
tanuck is planned for July 17th.

A Columbia farmer, A. S. Frink, ex-
hibits eye trouble. He has been
wearing seven feet, nine inches in height.

The Working Girls' state association
is planning for a carnival at the Vac-
ation house, at Madison, July 28 and
29.

The funeral of Mrs. E. T. Bates, the
wife of the state auditor, will be held
on Tuesday, at New Haven on
Monday.

At Watch Hill J. A. Atwood of
Waukegan has taken the Arches for
the season and his family is already
settling there.

Farmers say corn is backward as
the days and particularly the nights
have been so cold. It is well rooted
and is a dark green in color.

The hedge has been clipped and the
rambler roses are in bloom in the
early part of the season. The
Fire station, always well cared for.

The Meriden Record notes that John
Swain is in Norwich with his horse
"Friday" and will drive it in the mid-
summer racing events next Saturday.

Traffic over the New Haven road for
the holidays was heavier than it
has been for years over the Fourth.

This week marked the last legal ap-
pearance of the dangerous fire ball in
these parts. A legislative act, which
will become effective August 1, places
them out of the outlaw list for the future.

Mr. and Mrs. Walter Wheeler of
Meriden were on the holiday on the
24th. The various members of the Gladwin
family. The guests included Mr. and
Mrs. Edward Gladwin and daughters,
Rita and Mrs. C. W. Gladwin.

Dr. and Mrs. J. C. Taylor of Quaker
Hill spent the week end and Fourth
morning camping along the Merrimac
river. They used compact auto tents
and a large, light, portable stove.
Favorable location along the river.

In Ellington, C. P. Nicholson sold
about 1,600 day-old chicks the past
season and hatched out 4,667 for his
own use. He expects his sales of
broilers will reach \$50 by the end of
the season, he having already sold
about 400.

School authorities have received notice
that a conference on the extension
of the school year of the American Com-
monwealth, in the public and private
schools of this country will be held in
New York City, New York, from
Sept. 23 to Oct. 1.

The New London common council
has received a bill from the American
Proprietor of a millinery store on the
Parade, for damage done a few weeks
ago when a large quantity of glass
plates broke and ran amuck in his
store. The bill is \$32.

According to orders announced on
Wednesday Major A. Hero, Jr., C. A.
C. and Commander G. H. Jones, of the
staff of Commanding General, First
Atlantic Coast artillery district, and
Colonel E. M. Jones, of the staff of
Fort Terry, effective about August 8.

The American Ophthalmological Asso-
ciation of the American Com-
monwealth of Physicians and Surgeons has
finished holding its annual convention
at the Hotel Hamilton, New York. It
was held from August 1 to 5. It was
decided that the Eastern Point it
should be held in Washington, D. C.

As a result of the resignation in
Groton of Miss Angie Perkins, whose
marriage with James Dobbins took
place last week, the town clerk,
son, who formerly taught the sub-
primary school will take the first
semester at the opening of school in Sep-
tember.

Says the Hartford Courant: Building
inspector Francis M. McLaughlin
issued a permit Tuesday to C. D.
Crocker to build an addition to the
East River Emery building at the
rear of No. 801 Albany avenue. It will
be twelve by twenty feet and will cost
about \$78.

The civil service commission an-
nounced an examination for
metallurgical chemist. It will be
held at the Ordnance department
at large, Frankfort, Arsenal, Philadel-
phia, Pa. The examination will be
open to all citizens of the United States
whose education, publication or
thesis and experience.

The jury commissioners for Tolland
county, Edwin C. Pinney of Stafford,
Llewellyn J. Sturges of Mansfield and
Cornelius T. Tinger of Rockville,
met at the office of the last named in
Rockville on Monday, July 12 to re-
vise the jury list for the coming year.

Twenty-two druggists from various
places in the state attended a hearing
before Dairy and Food Commissioner
Edward H. Stantmiller and the state
board of pharmacy at the state capitol,
Tuesday, called to explain the
possession or sale of certain below
standard pharmaceutical prescriptions.

Two Greenville boys, 13 and 16

were brought in by Sergt.

PROGRESS IN THE FARM

Spring Water Supply is Completed at the Gallup Place in Poquetanuck and Under-drain Sewerage System is Now Being Put in—Supt. H. M. Pollock Expects to be Ready to Receive Half the Capacity of Farm by August 1st.

The state farm for inebriates, for
which the Gallup place of 199 acres at
Poquetanuck acquired three years ago
by the Norwich state hospital, is to
be used, will be ready for its first in-
mates by the first of August. At that
time, Supt. H. M. Pollock of the state
hospital, who in active charge of the
preparations now going on, stated
Wednesday night, the farm will be able
to accommodate half its capacity. The
farm is located on the east side, is
about 24 men patients. When the
housing facilities are completed, the
farm will have 48 inmates, with sev-
eral attendants.

At the present time the water sys-
tem is completed, the supply being ob-
tained from some spring about 100
feet through a one and one-half inch
main. A modern under-drain sewerage
system is being put in. The sewerage
system, is being put in now. The
capacity of the pipes balances that of
the tank and a high efficiency is main-
tained. The capacity of the pipe has
been increased to 100 feet in the rear of
the house that was formerly a work-
shop. The first floor of this last will
be used for a kitchen, service room
and a dining room. The roof will be
raised, and the second floor provided
with dormitory accommodations for 24
men.

The first floor of the main house
will have for its main room a kitchen,
a room for the three employees
and a storeroom. In the basement,
which is a full story on the east side,
will be lavatories and bathing facilities.
The second floor will be a dormi-
tory for 24 men patients. Thus the
total capacity of the farm will be
increased to 48 men. By the first of
August the main house will be ready
and the water supply system will be
in operation. The farm will be ready
for the usual treatment of the
men as they come, and after this
the capacity of which will be 100
patients a day. In this
storage tank bacterial action will pro-
duce liquefaction, and by siphoning
this will be sent to the sewerage
system. The sewerage system is being
put in now. The capacity of the pipes
balances that of the tank and a high
efficiency is maintained. The capacity
of the pipe has been increased to 100
feet in the rear of the house that was
formerly a workshop. The first floor
of this last will be used for a kitchen,
service room and a dining room. The
roof will be raised, and the second
floor provided with dormitory accom-
modations for 24 men.

in operation. The farm will be ready
for the usual treatment of the
men as they come, and after this
the capacity of which will be 100
patients a day. In this
storage tank bacterial action will pro-
duce liquefaction, and by siphoning
this will be sent to the sewerage
system. The sewerage system is being
put in now. The capacity of the pipes
balances that of the tank and a high
efficiency is maintained. The capacity
of the pipe has been increased to 100
feet in the rear of the house that was
formerly a workshop. The first floor
of this last will be used for a kitchen,
service room and a dining room. The
roof will be raised, and the second
floor provided with dormitory accom-
modations for 24 men.

The farm is located on the east side,
is about 24 men patients. When the
housing facilities are completed, the
farm will have 48 inmates, with sev-
eral attendants.

At the present time the water sys-
tem is completed, the supply being ob-
tained from some spring about 100
feet through a one and one-half inch
main. A modern under-drain sewerage
system is being put in. The sewerage
system, is being put in now. The
capacity of the pipes balances that of
the tank and a high efficiency is main-
tained. The capacity of the pipe has
been increased to 100 feet in the rear of
the house that was formerly a work-
shop. The first floor of this last will
be used for a kitchen, service room
and a dining room. The roof will be
raised, and the second floor provided
with dormitory accommodations for 24
men.

The first floor of the main house
will have for its main room a kitchen,
a room for the three employees
and a storeroom. In the basement,
which is a full story on the east side,
will be lavatories and bathing facilities.
The second floor will be a dormi-
tory for 24 men patients. Thus the
total capacity of the farm will be
increased to 48 men. By the first of
August the main house will be ready
and the water supply system will be
in operation. The farm will be ready
for the usual treatment of the
men as they come, and after this
the capacity of which will be 100
patients a day. In this
storage tank bacterial action will pro-
duce liquefaction, and by siphoning
this will be sent to the sewerage
system. The sewerage system is being
