SALT RHEUM ON HANDS AND ARMS

Covered With Watery Pimples. Would Burn, Itch and Smart So Could Not Do Housework. Used Cuticura. Completely Healed.

Hodgdon, Maine.—"I had salt rheum in the worst form for over two years. It caused my hands and arms to swell and feel numb. They were all covered with watery pimples and smart so I could not do my housework. My hands and arms looked as if they were pained. Oh! How they burned and itched. I also had itching scab and could not sleep at night.

"Then I used Cuticura Soap and Ointment. I washed my hands with the soap, dried them and then applied the Ointment. The first time I put them on it was cooling to my burning hands, and being in the water blisters. After using Cuticura Soap and Ointment a few weeks, I could see a great difference and now, to-day, my hands are soft and smooth, and the itching is all gone. They are completely healed."
