Matters for Town Meeting to Consider.

The call has been issued by the selectmen for the annual town meeting to be held Monday, October 4 at the old town hall on Church street. The polls will be open from 8 in the forenoon to 5 in the afternoon, and in addition to the vote for town officers there will be a decision on the license question again this year, the necessary number of petitioners having signed a petition for the same. At the adjourned meeting to be held later appropriation will be made for the support of the schools, a vote taken on the customary appropriation of \$350 for St. Joseph's hospital, and of \$50 for the town missionary, and also to see whether the voters desire to rescind the appropriation made at a recent special town meeting of \$1,500 for new ceilings in the hall of the town building. This last appropriation passed by one vote at the special meeting.

MAKING OF PULP SPOOLS

Not Ordered Discontinued at Thread Company's Plant.

Officials of the American Thread company stated Tuesday that they had received no orders to discontinue the making of pulp spools at the local plant, contrary to the report on the streets. It is said that the company has a supply of pulp on hand which would keep the department busy for three months or more, if word should be sent of the discontinuance of this branch, which is at present housed in the old No. 1 mill. In view of the fact that the company has a tract of white birch woodland in Maine, and that the tendency is toward the use of wood rather than pulp spools for all but large sizes, it would not be surprising, however, if some such action should be taken. In this case, however, it is stated that every one employed in the pulp department would be given employment in other departments.

Two hearings were held by the street committee at the hall Tuesday evening. One was in relation to the lines and grades on Lebban avenue, which had already been before the committee several times, as some of the property owners objected to the method proposed, of grading the street. A hearing was also held in regard to lines and grades on Pleasant street from South street to Lebban avenue.

Make it Easier For Baby in Summer

Many of the Hot-Weather Troubles Can Easily Be Avoided

If the mother will see to it that the bowels are kept regular, much of the illness to which children are most susceptible during hot weather can be prevented.

A mild laxative, administered at regular intervals, will prove an excellent preventive of summer complaints that are caused by inactive bowels. The combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is excellent for children. Being pleasant to the taste, given and free from opiate or narcotic drug of any description. It acts naturally, without griping or water discomfort, and is altogether dependable.

The cleansing of the bowels will most effectively check an attack of cholera, and prevent the serious matter and poisons that irritate and inflame the tissues.

School Secretary's Report.

A meeting of the school board was held Tuesday afternoon to hear the report of the secretary, A. C. Burdick, on the progress of the school. Officers for the Tyler district were appointed, with Frank Geer as district committee; W. C. Briggs, clerk and treasurer; and Joseph Wood, collector. It was voted to open the school in the Tyler district, provided the district put school building in proper condition. Secretary A. C. Burdick's report was in part as follows:

The progress of our children in their studies and such training as will produce the best citizenship in later years is obviously the chief purpose for which we expend money on schools. It is just as difficult to point out this certain progress as it ever was. Some pointers, however, are observed in the year. Among the more important things observed was the unusual interest shown by teachers and pupils in current events, and the desire to keep abreast of the times in all of the departments of school work.

SHORTAGE OF FREIGHT TONNAGE ON THE PACIFIC

Has Disastrous Effect On American Trade in the Far East.

Washington, Sept. 21.—Disastrous effect on American trade in the far East of a continued shortage of freight tonnage is being predicted in a report on the freight situation by Consul General George E. Anderson as a result of recent legislation in the United States. Action so far taken by agents and others concerned, in eastern ports, contemplates the complete cessation of the service of five ships by January, 1916, and of the six vessels by the end of the year.

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1893 I was attacked by Rheumatism, and in a matter of days I suffered as only those who have it know, for over three months I was unable to get on my feet. I tried every remedy, but to no avail. Finally, I found a remedy that cured me completely. It has never returned, and I have given it to a number who were terribly afflicted with Rheumatism, and it effected a cure in every case.

Waterbury, Conn., Sept. 21.—David Corwin, aged 65 years, was mangled to death by a trolley car near the Waterbury Driving park shortly before 8 o'clock. Corwin, who was an inmate of the Brookside home, attempted to board the car while it was in motion, but missed his hold and fell from the running board and under the wheels. Before the motor was started the trolley car body was crushed almost to a pulp. The car was bound from Oakville to Waterbury and was crowded with passengers.
