Tailoring in War Times.

According to the tailors, grey will be the wear of men in this autumn. The reason is the dye difficulty. The tailors, like most other people, are hit by the war—that is to say, the tailors without army contracts—but as a trade paper says, the bitterest blow falls upon the tailor who loves his art and whose instinct tells him that we have had enough of grey. Under happier circumstances the tailors would have switched us on to green this year, but again to quote an artistic tailor, "we must top for the war." The tailors, like the dressmakers, deplore the economy craze which keeps men away from the shops, and they talk gloomily about the steady rise in the cost of woollens. Some tailors are finding consolation in the fact that working-class women, with more money than usual to spend, are spending some of it on buying ready-made suits for their small boys. The other day a tailor told us that he was the tailor for the economy of the middle-class business man and the non-existence of the Burlington Arcade type of youth.—Manchester Guardian.

After a short illness which developed seriously only two weeks ago, the death of Miss Josephine Connell, of No. 12 Roath street, occurred at 1 o'clock on Friday morning. She was born in this city and had always lived here and was 23 years old last Monday, September 20.

She was survived by her father and two brothers, John F. and Joseph J. Connell. She was the aunt, Miss Nellie O'Connell of this city.

Mrs. John Glasbrenner.

Following a week's illness Christina Salzer Glasbrenner, widow of John Glasbrenner, died at her home in Roxboro, Montville, Friday morning at 4.30 o'clock. On Thursday last week Mrs. Glasbrenner was prostrated by the heat while attending the county fair and failed to recover consciousness.

Mrs. Glasbrenner was born in Wurttemberg, Germany on May 22, 32 years ago, and was the daughter of Michael and Rosena Bauer Salzer. She had been a resident of this country for 55 years.

Mrs. Glasbrenner was twice married, first to Frederick H. Glasbrenner, a German soldier and a stone cutter by trade. He was killed by a falling stone and after his death she was united in marriage with John Glasbrenner who died about 20 years ago. For a time Mr. and Mrs. Glasbrenner lived in Michigan but for years they made their home in Norwich where all of their children were born. For 33 years past Mrs. Glasbrenner had lived in Roxboro. Her parting is the source of deep regret by all who knew her.

NEED FOR HOUSES IS URGENT

Proposition to Form \$100,000 Real Estate Co. to Build Houses—Hopkins & Allen Arms Co. Would Subscribe 20 Per Cent.—Housing Committee Will Recommend to Board of Trade and Chamber of Commerce—Arms Co. Officers Say People Need to Wake Up.

The fact that there is an imperative and urgent need for more houses in Norwich and that the citizens generally need to wake up to a realization of this and take some early and adequate measures to meet the situation that is soon to confront them were points that were emphatically brought out at a meeting Friday evening in consideration of the forming of a company to build houses for the employees of the Hopkins & Allen Arms company, when it gets to work on the big contract for army rifles for Belgium.

Robert W. Perkins spoke of a visit which members of the committee had made recently to the Hopkins & Allen plant here, where they met President MacGregor, Treasurer George Adams and others of the officers and were shown about the plant and saw some of the preparations that the company intends to take care of the housing contract on which they expect to have 2,500 men employed here by the first of February.

One of the things that impressed the Norwich men was the fact that there are already at the Hopkins & Allen plant 30 draughtsmen who are at work on the drawings that are necessary to be made in preparation for the work that is to be carried on. These are all new men who have been brought to the plant for this work.

In their talks with the officers of the company, the heads of the Hopkins & Allen concern impressed upon the Norwich men that the standing of the need of more houses in the city to accommodate their help that would come here and they made the offer to put \$20,000 into a house building company if one were organized for the purpose of supplying dwelling places for their help. It was their advice that two or three apartment houses ought to be built and to be put out on Thursday.

After hearing what was to be said about the situation, the joint committee voted to recommend to the two organizations that they proceed with the organization of a real estate company and that each of these Norwich organizations take action on the proposition individually.

There was a suggestion also that a public meeting might follow and that the plan might be presented to the citizens of putting \$100,000 or some part of that sum into the organization of a company. The offer of the Hopkins & Allen company is to furnish 20 per cent of what is raised.

The plan of operation for the real estate company would be to secure a tract of land that would be conveniently located and built on it houses especially for the Hopkins & Allen employees, who would be given preference in securing locations in these houses and apartments that would be built.

One suggestion made before the committee was that there were probably many single apartments now in the city which might with little trouble be made into two apartments and that other houses might be added by the addition of an ell or other changes be made to accommodate more families than they do now accommodate.

There is no question about the need, the committee was assured, and the Hopkins & Allen company is going ahead and getting ready for the work they are to do as fast as possible. Emphasis was laid, too, upon the fact that the present promised increase in the price of houses was not to be merely temporary, but that the contract means two or three years' work which has been done in the past. The committee a list of 100 available houses and 500 to 200 rooms. These have been in response to 1,000 postal cards that were sent out to property owners, 500 having been sent out on Thursday and another 500 on Friday.

Creator's Band.

A program that was received with enthusiasm for every number and demonstrated that the audience was thoroughly satisfied was given at the Davis theater on Friday evening by Creator's Band. The program was smaller than had been expected, the audience was not lacking in their demonstrations of approval, and when the band was in the group from Faust which ended the programme had been given they did the unusual thing for a Norwich audience of falling to make any in response to a demand for the door. They left their seats and kept applauding till Creator had come back to bow several times and the curtain was then rung down.

The following was the programme that was given:

RANCHMAN BELIEVES HE HAS BANDITS SURROUNDED.

Two Detachments of Cavalry Sent to Aid Him.

Mission, Texas, Sept. 24.—The trail of 12 bandits who yesterday raided the Falpa ranch near here was struck today about 15 miles from Mission, where they had cut fences and telephone lines and passed through the Monte Christo ranch.

Continuing through this tract of land, they cut through fences to the McAllen ranch in Hidalgo county and passed on to the ranch of Sam F. Lane. Lane reported he believed he had the band surrounded in the brush in his pasture, but as the bandits have cut the fences, wires in that section of communication was interrupted tonight.

ORDINANCE EPERXT PICKED FOR NAVAL ADVISORY BOARD.

Protecting St. Paul's.

An association of architects and art craftsmen now does duty in protecting St. Paul's Cathedral, presumably in case of incendiary bombs being dropped upon it by Zeppelins. These men, who include many well known architects, serve in addition to the regular watchmen. Sand boxes, shovels for putting out fires are placed in convenient corners, just as they are in the museums and art galleries of London. So far the Zeppelins have destroyed nothing of importance in the way of art or architecture in England.
