To Put On Flesh And Increase Weight

Most people eat from four to six pounds of good solid fat-producing food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all a matter of what they eat. It's not the quantity, it's the quality. It's not the quantity, it's the quality. It's not the quantity, it's the quality.

Most thin people stay thin because their powers of assimilation are defective. They absorb just enough of the food they eat to maintain life and the semblance of health and strength. Stuffed with the fat of good material, a day's work will make them gain a single "pound" all in all. What such people need is something that will prepare these fatty food elements from the body as waste, absorb them and deposit them all about the body—something, too, that will multiply blood corpuscles and increase their blood-carrying power.

For such a condition it is well to recommend eating a Bargoil tablet with every meal. Bargoil is not a simple, a patented drug, but is simply a careful combination of all the most assimilative and flesh building elements known to chemistry. It is absolutely harmless, yet has been wonderfully effective and a single tablet eaten after every meal, according to the directions, will in a few days increase the weight of a thin man or woman from three to five pounds a week. Bargoil is sold by Le & Co. of Groton, Conn., and Chas. B. Wood Co. of Norwich, and Chas. B. Wood Co. of Norwich, and Chas. B. Wood Co. of Norwich.

The production of an express receipt by the attorneys for Henry Coon, who was on trial in the superior court on the charge of theft of money last July while he was taking care of the late Edwin F. Yerrington of Lantern Hill had much to do with a motion made by State Attorney Hill to nolle the case when court came in here on Wednesday morning. The receipt showed that some mattresses had been shipped a week earlier than the prosecution had supposed and this disposed of the attempt to show what time Coon had had opportunity to get the money that was kept in a shot bag between the mattresses.

The court granted the motion for a nolle and Coon was given his freedom. His attorneys were Brown & Perkins. After the Coon case was disposed of a jury was selected to try the case of William Gudeah, accused of stealing one cow at a farm of W. N. Wheeler in Preston, near Greenville, on Aug. 16. Gudeah, who is 54, was defended by Attorney V. P. A. Quinn. The jury found the man guilty and he was sentenced to eight months in jail. The case of the state vs. Clayton Lewis was nolle. He lives in Colchester and was accused of receiving chickens that were stolen. He was not put to plea and was out under bonds.

The court went out for the day about 2:45. The local post-office has received notice from the department at Washington that after November 1 date instead of cotton twine will be used for tying letters. Last year cotton twine was substituted for jute because it was cheaper.
