# GERMAN ATTACK ON ALL GERMAN FRONTS

## Serbian Resistance to the Austro-German Invasion

### RAILWAYS HAVE NOT YET BEEN REACHED

#### Allies Have Begun an Offensive in the Dardanelles to Keep the Turks Busy—British and French Have Resumed Attacks in Flanders and Champagne—Russians Are Delivering Counter Attacks in Effort to Regain Invasion—British Monitors are Bombarding the German Positions Along the Belgian Coast, and British Submarines Have Sunk Ten German Ore-Carrying Steamers in the Baltic, Completely Paralyzing the Ore Trade Between Sweden and Germany.

London, Oct. 14.—The Austro-German and Bulgarian attacks on Serbia are proceeding as they are, however, meeting with stern resistance and, although under constant attack since Oct. 6, the Serbians are giving ground only foot by foot. The extent of the Bulgarian invasion up to the present, according to a despatch from Nish, consists of an advance of the frontiers at one point of a mile. With this exception, says the report, the fighting line remains intact and the railways have not yet been reached.

It is reported also that the allies have begun an offensive in the Dardanelles to keep the Turks busy. The British and French, Berlin relates, have attacked in Flanders and Champagne, while the German official report of the campaign in Russia is a record of counter-attacks against the Russians who are endeavoring to resist the invasion.

Even the Belgian coast is not exempt from the German bombardment. The British and French, Berlin relates, have attacked in Flanders and Champagne, while the German official report of the campaign in Russia is a record of counter-attacks against the Russians who are endeavoring to resist the invasion.

### BRITISH RETALIATION FOR GERMAN AIR RAIDS

Entered at a Mass Meeting in London's Financial District.

London, Oct. 14, 8.15 p. m.—The policy of replying to German air raids by "bombing" the sleeping towns as the bombs are received an enthusiastic endorsement at a mass meeting held today in the great hall of the Cannon Street hotel in the financial district of London.

Lord Willoughby de Broke and William Joyce, both members of the British parliament, were the principal speakers at the meeting.

"It is a matter of course," said Lord Willoughby de Broke, "to urge upon the government that they have got to take steps to stop the kind of thing that happened in the Balkans. The only way to do it is to treat them as they treat us. Otherwise they will continue to do it. They will continue to do it until they are completely exhausted and become the laughing stock of Europe."

Mr. Johnson-Hicks made a demand for reprisals which was couched in more lurid language.

### SIR EDWARD GREY ON DIPLOMATIC CONDITIONS

Tells of Efforts to Have Turkey and Balkan States Remain Neutral.

London, Oct. 14, 4.15 p. m.—The diplomatic rather than the military situation was the subject of Sir Edward Grey's eagerly awaited statement relative to the Balkan situation which he delivered today to a crowded house of commons.

"I propose to come myself," the British foreign secretary said, "to a resume of our diplomatic object since the war. At the outset, we desired that the war should not spread and in common with our allies we assured Turkey that if she remained neutral Turkey would be strictly enforced. This situation was completely changed by the entrance of Turkey into the war and all obligations on the part of the allies then ceased.

And our allies then concentrated upon securing an agreement among the Balkan states and we used all our influence to secure an accord. Unfortunately the feeling in the Balkans is not one of union but of division. It was clear nothing but a decisive preponderating advantage for the allies would have enabled us to secure a policy of union.

## FIRST PAYMENT OF WAR LOAN TODAY

### But Engraved Notes Will Not be Available for About Two Months

### TEMPORARY CERTIFICATES ARE TO BE ISSUED

### At 2 P. M. Today, at the Office of J. P. Morgan & Co., New York, the Loan Contract Will be Signed—Syndicate Agreement as to Allotments is Said to Have Been Signed—Task of Signing the Certificates Will Probably Keep the Signers Busy for Several Days—Proceeds of Loan Available Only to the British and French Governments.

New York, Oct. 14.—Although tomorrow has been set as the date of making the first syndicate payment on the \$500,000,000 Anglo-French war loan, the actual signing of the contract will be delayed for about two months. Bids for engraving the notes are now being received by the Anglo-French commission and the contract probably will be awarded before the signing leaves the United States next week.

### Large Engraving Contract

The engraving will be done in the United States and will be the largest single contract ever awarded for the printing of currency. The Anglo-French commission and the underwriters, in many instances, it was said, these bankers had never before participated in an underwriting syndicate and legal phraseology of the contract was new to them.

### Commissioners to Remain a Week

Lord Reading and his assistants will remain in New York about a week longer. They will probably go to Canada then for a short stay before returning home. When they reach London they will discuss methods of spending the loan proceeds and arrangements will probably be made to sell exchange there in British sterling.

### Available Only to British and French

As the contract stands the entire proceeds of the loan are available only to the British and French governments. The bulk of the money will be spent for purchase of war—both to protect themselves in position to defend their country from any aggressor who may attack us. We want an efficient navy for peace—both to protect ourselves in position to defend our country from any aggressor who may attack us.
