QUIT MEAT IF YOUR KIDNEYS ACT BADLY Take tablespoonful of Salts if Back Hurts or Bladder Bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative process clogs and thus the waste is retained in the blood to poison the entire system.

When your kidneys act badly, you feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy and has a strong odor.
