# LANDING OF ALLES CAUSES UNEASINESS

## Ministers of Bulgaria and Turkey Again Protest to the Greek Government

### ITALY ALSO IS TO COME TO SERBIA'S AID

London, Nov. 12, 9:20 p. m.—The continued landing of British and French troops at Saloniki is causing some uneasiness in Bulgaria and Turkey and the ministers of those two powers today again protested to the Greek government, which took formal notice of their protest.

The determination of the entente allies in their Balkan campaign is shown by the large force they are sending to Saloniki. It is believed that Italy also had decided to intervene in this region "in a manner worthy of her position." The British and French support to the British and French to assure complete triumph. This is said to have had some influence on Greece and Rumania. Rumania, however, is waiting for the development of the Russian plans.

Invasion Advance Slowly.

Meanwhile the Austro-Germans and Bulgarians are advancing slowly in their efforts to cut off and annihilate the Serbian army. The Serbian forces, however, are growing more difficult as the Serbians now have occupied extensive positions south and east of Kareljevo and east of Ivanitzna, and on the southern Morava, where heavy fighting is in progress. Big battles also are proceeding in the Anglo-French, the Bulgarians and the Anglo-French, but the reports are so conflicting that it cannot be said which side has gained an advantage.

German Retreat in Russia.

Outside the Balkans the most important theatre of operations is now along the eastern front. In the north the Germans apparently have abandoned any hope of reach Riga and Dvinsk, at least until the German breezes are falling back or are being driven back from the Dvina, which was their objective.

Russians Attempt Outflanking.

The Russians in the Riga region are attempting an outflanking movement and their recent successes have brought them within striking distance of the Tukum-Mitau rail line, which connects the German fighting front with the fortress of Windau. The Germans are also falling back before Dvinsk as the result of Russian offensive near Lake Swetloye, and the south General Ivanoff has continued to harass the invaders by repeated thrusts which have cost the past few weeks, according to Petrograd despatches, have brought him nearly 150,000 prisoners in the most recent of these thrusts, near Rudka, the bag totalled 6,000, many of whom were German.

Italians Maintain Offensive.

The Italians keep up their offensive on both the Trentino and Isonzo fronts and are making another effort to take Gorizia, which has withstood them for so long.

On the western front heavy artillery bombardments are beginning in Artois and with the present rain-soaked condition of the ground this can hardly forestall a new offensive.

## Break in Strike of Freight Handlers

### CAME TO AGREEMENT WITH BOS-TON & ALBANY ROAD.

### BACK TO WORK TODAY

No Agreement Has Been Reached Between the Boston & Maine and the New Haven Road and Their Employees.

Boston, Nov. 12.—The first break in the week's strike of railroad freight handlers came tonight with the announcement that the Boston and Albany road and its 500 employees had reached an agreement with the union. Some of the freight handlers are to return to work tomorrow, according to union officials, notwithstanding a vote passed recently by the men of

## Gabled Paragraphs

French in Montenegro Safe. Paris, Nov. 12, 2:40 p. m.—The French minister at Cetina telegraphed that all the French citizens in Montenegro are safe and well. Communication between Montenegro and the outside world is extremely difficult.

MISCONDUCT IN OFFICE, NEGLECT AND INEFFICIENCY Charges Against Edward E. McCall of New York Public Service Commission.

New York, Nov. 12.—"Misconduct in office, neglect of duty and inefficiency" are the charges against Edward E. McCall, a commissioner of the New York Public Service Commission, in a statement tonight by the legislative committee investigating the public service commission. The charges are based on a report to Governor Whitman from the office of Edward E. McCall, which was made on the commission of this district.

In its statement the legislative investigating committee stated that Mr. McCall's neglect of duty was shown by his failure to give adequate service as a commissioner in the supervision and the regulation of corporations.

While the committee, headed by State Senator Thompson, the chairman, details specific charges, it makes numerous general accusations. Among these are that McCall "has exercised his official power and influence for the particular advantage and benefit of certain interests." The committee accused Mr. McCall of "neglect of duty" in the supervision and the regulation of corporations.

It is believed details probably will reach here tomorrow. Ambassador Thomas Nelson Page's visit to the Italian foreign office is expected to depart at least whether the Ancona was torpedoed without warning, or whether she was drowned in the panic that ensued when she was halted.

The impression is strong in official quarters, based upon press despatches that the vessel tried to evade and that those of her passengers who were rescued were drowned in the panic that ensued when she was halted.

## Be Alive to the Opportunity

Before a convention at Chicago Garrett Fort, general passenger agent of the Union Pacific declared that railroads of the United States demonstrated their faith in newspaper advertising by spending \$10,000,000 for newspaper space during the last fiscal year.

Concerning the value attached to newspaper advertising for church purposes Rev. E. A. Rumball, of Boston, at a conference of the Unitarians of the middle states and Canada spoke of "the large newspaper advertisements which the Unitarian churches are displaying in the various cities of the country. Some of them took whole pages and resembled the advertising of department stores."

When railroads and churches have fully demonstrated that it pays to advertise it must be apparent to the business man, big or little, that he is neglecting his opportunity unless he is alert and profits by their experience, and when it comes to selecting a medium the best is the cheapest. Such is the service which The Bulletin renders daily.

## VILLA AND OBREGON BOTH AT NOGALES.

Carranza Leader Declares It Nothing More Than a Coincidence.

Nogales, Ariz., Nov. 12.—Francisco Villa, chief opponent of the Carranza government in Mexico, arrived at Nogales, Ariz., today, accompanied by 200 troops, a few hours after the arrival of General Obregon, Carranza's chief opponent in the north.

General Obregon said that his presence here at the same time Villa was in the city was a coincidence. The Carranza leader late today announced that he had no intention of leaving the state, but that he would remain in the state, which he predicted that forces of the de facto government would be in complete possession of the state of Sonora in a few days.

Reports that General Villa had been offered amnesty were emphatically denied by General Obregon, who declared that Villa would be treated as an outlaw if captured.

General Obregon announced his visit to Nogales was for the purpose of conferring with Carlos Randall, acting governor of Sonora, who is being controlled by Villa. He said he might make Nogales his headquarters for future operations.

## REVISION OF GEORGIA'S PROHIBITION LAWS PASSED LAST NIGHT BY LOWER BRANCH OF LEGISLATURE.

Atlanta, Nov. 12.—A measure revising Georgia's prohibition laws, designed to eliminate completely breweries, local agents and near beer saloons now in operation, was passed tonight by the lower house of the legislature. It already has passed the senate and is understood to have the approval of General Harris.

The bill specifically prohibits the manufacture or sale of intoxicating liquors in the state and defines liquor as having more than 20 per cent of one per cent alcohol. Present laws permit manufacture and sale of drinks containing not more than four per cent alcohol.

Bills passed by the senate to prohibit liquor advertisements in the state and to limit the amount of liquor each individual may import into the state will come up in the lower house next week.

## ALLEGED MONOPOLISTIC ACTION OF NEW HAVEN DIRECTORS WITHIN THE THREE YEAR PERIOD OF STATUTE OF LIMITATIONS.

New York, Nov. 12.—An alleged act of intent to monopolize, committed within the three year period of the statute of limitations, by former directors of the New York, New Haven and Hartford railroad, eleven of whom are now on trial, charged with criminal violation of the Sherman law, was described to the jury today. The testimony adduced to prove it marked the second time thus far during the trial that the government's case has entered this vital period.

The alleged offense consisted of the approval by the board of directors in 1912 of a proposition to acquire "open ended" stock of the New York, New Haven and Hartford railroad, and to establish a freight line from Boston to Galveston and through the Panama canal when should be completed.

## MEXICAN BOUNDARY LINE MARKED BY FLAGS.

Action Taken After Villa Cavalry Had Pursued Deserter Over Line, Says DIED.

Naco, Ariz., Nov. 12.—The boundary line between Mexico and the United States was marked at fifty yard intervals by American flags today. This action was taken after a Villa soldier escaping from Naco, Sonora, had been pursued by Villa cavalry across the border into the United States. The Villa Cavalry, United States Border Patrol, arrived at the Mexican border to protest just as General Jose Rodriguez notified the state department of the firing squad that faced the prisoner.

It was explained that the man executed was wanted in connection with a shooting affray and that his pursuers were ignorant of the boundary line.

## CASHIER NORTHWESTERN UNIVERSITY MISSING SINCE LAST MONDAY—HIS ACCOUNTS ARE BEING AUDITED.

Chicago, Nov. 12.—Franklin K. Jackson, bookkeeper and cashier for Northwestern university, has been missing since last Monday. His accounts are being audited tonight.

Jackson's accounts were audited until July 1, 1915, and were found in perfect condition, according to William A. Dyche, business manager and treasurer of the university. Since then he has handled the 1915 tuition fees averaging \$40 each, from 2,400 students. Dyche declared these funds were now being audited.

## MEETING OF ACADEMY OF POLITICAL SCIENCE

### Senator Weeks Argued for a Large Merchant Marine.

New York, Nov. 12.—Assertions that in the event of future foreign wars exports from the United States would be virtually cease and that only the superior British and French navies would be able to transport the goods of the present European conflict, were made at the meeting of the Academy of Political Science today as arguments for the upbuilding of the American merchant marine.

Charles F. Fletcher, of Florida, John W. Weeks, of Massachusetts and Robert L. Owen of Oklahoma were the speakers.

Senator Weeks argued for a large merchant marine. Pointing out that this country now pays to foreign owners of ships \$20,000,000 annually in transport American products abroad, he asserted the creation of a merchant marine would not only increase industry in this country and give employment to probably 500,000 workers. In the event of a great foreign war, he said, an ample merchant marine would be invaluable, because it would enable the United States to export goods regardless of the war, whereas now, if it were not for the superior British and French navies, American exportation would be stopped.
