Get glad! for you've hit the right tobacco!

No more tobacco grouches; no more scorched tongues, parched throats! Just joy, via Prince Albert, tobacco that'll punch-pleasure into your system quicker than you or old Blue Monday can kick it out!

Smoke P. A. like you went to college with it—it's so chummy! Can't go wrong on P. A. because it's made to spread-smoke-sunshine; to make pipesters and "rollers" glad! The patented process does that—and cuts out bite and parch. All day long you'll sing how glad you are to know

You should fret; you should dream about tobacco that hits the spot! And P. A. laying close-by ready to be called by its first name! Nothing to do but load a jimmy pipe or roll a cigarette, make fire—and puff away! You can smoke a barrel of P. A. without a kick! You take this testimony straight and—get glad! It's so cheerful-like to be peaceful, via real and true tobacco!

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

Watch your step!

It's easy to change the shade and color of unsalable brands to imitate the Prince Albert red tin, but it is impossible to imitate the flavor of Prince Albert tobacco! The patented process protects that!

Boston, Jan. 4.—Three locomotives were all that President Elliott of the New York, New Haven & Hartford railroad had been able today to obtain from eastern roads to assist in relieving the freight congestion on the New Haven system. He telegraphed the heads of all the railroads east of the Mississippi and north of the Potomac river asking for freight engines. The Lackawanna railroad had three which it could spare and these were immediately leased by the New Haven. Most of the other roads reported that they were in the same predicament as the New Haven and had no spare motive power.

The two recent storms cost the New Haven road \$1,000,000, according to a statement which is being sent out to stockholders by President Elliott. This estimate of loss includes passenger and freight business missed and repairs to the electrified system.
