which it is said was to pay the back salary of the pastor, and made some reference to the rumor that has gained considerable circulation in regard to Rev. Dennis. He then moved that William Spivry be appointed moderator. This was about 8:30 o'clock.

Rev. Dennis said he objected to this motion, claiming that he has the right to preside at all church meetings. A general scuffling ensued and in the scuffle the minister was somewhat roughly handled for his claims that Frank Lacy and two others took hold of him and dragged him from the church. He let his hat and cane but later he covered his face with his hands and said that he had suffered slight scratches about one of his wrists. After Mr. Dennis said entrance was refused him and after waiting around a short time he went to his home.

Mrs. A. F. Drury, the church clerk, who was to have kept the headquarters of the meeting, said over the phone later in the evening, that she did not remain after the trouble started but immediately left for her home.

Sergeant John H. Kane who was stationed outside the door with Policeman Donovan, said that a woman came out of the church and told him that there was trouble in the church. Sergeant Kane and Policeman Donovan immediately entered the church where the scuffling was going on. Rev. Dennis was surrounded by members of the congregation. The new card has been arranged so that the horses now in use in several of the stations will not be called upon to respond to first alarms as often as before, this being made possible through the motor apparatus which is able to cover more ground in less time. The new card will make it easier for the horses and at the same time will increase the efficiency of the department. Much care has been taken in the preparation of the card, more apparatus being sent to important localities than is sent to localities of lesser importance, so that in case of fire the horses will have his men right on hand to cope with the situation.

STARTLING ACCUSATION IN LONDON DAILY EXPRESS. Asserts Roosevelt is Trying to Push President Wilson Into War.

London, Feb. 1, 3:15 a. m.—The Daily Express in an editorial today, after remarking that the latest Zepplin attack is certain to provoke a new indignation in the United States, urges that country the necessity of preparing for the worst.

"Former President Roosevelt is trying to push President Wilson into war," says the Daily Express, "but the president knows America is unprepared, otherwise he might do something more than write indignant notes. Great Britain would have been in the same position if the United States had their way and would still be warring with Germany. CATARRH CAUSED BY A GERM How to Destroy the Germ and End Disease.

To cure catarrh as it won't come back you must, according to a noted authority, first drive from your body the millions of germs that are flourishing in the inner recesses of your nose and throat. These germs are causing the disease.

There is a preparation which does this. It is called Hyromil (pronounced Hye-romil) and it is a germ-killing vaporized air formed from the purest of chemicals. It is a germ-killing, healing and antiseptic. You breathe Hyromil through the mouth and nose by means of a little hard rubber inhaler which druggists furnish with it. This medicated germicidal air penetrates the nostrils, reduces and heals the swollen, inflamed membrane, stops the discharge and opens up the clogged nose and air passages in a truly wonderful way. Lee & Osgood and many other leading druggists in Norwich and vicinity sell Hyromil with the positive guarantee that it will cure catarrh or the money paid for it will be refunded.

EXPLAINS WHY MEN ARE GROWING BALD

Thousands of men are growing bald every day and don't know the reason why. Many of them never expect to save even what hair is left. This is indeed a pity, says a hair specialist who claims that baldness usually comes from carelessness and that anyone who gives the hair just a little occasional attention should always have an abundance of good, healthy hair. Dust and dirt help to cause baldness by clogging the pores in the scalp and giving the germs of dandruff fertile ground for prolific breeding.

The treatment is very simple; wash out the dust and dirt with any pure soap at least once in ten days and destroy the dandruff germs by applying every other night Parlan Sage, a delightful efficient preparation of hundreds of druggists recommend as the surest treatment to stop hair from falling, to remove dandruff, and to refresh and invigorate the hair roots.

Of course, like all successful discoveries, Parlan Sage has been greatly marred by imitations which make it necessary to ask for it by name. The cost of a generous bottle is very little, and to supply the steady demand, the Lee & Osgood Co. always have an abundant supply on hand.
