Robert W. Boys of the mill at Williamsville has another communication. One of the most significant paragraphs in the letter, and evidently reflective of public sentiment in England, has to do with the settling of the war—and arbitration. The Killingly team will enter the game in school form.

Incident to the items that have gone relative to the nominations for judgeship of the superior court that are to come before the next session of the legislature and the fact that Judge M. A. Shumway of Danielson is to be retired by reason of reaching the age limit in 1918, it has been suggested that Putnam has splendid material from which to select a successor to Judge Shumway, the only representatives of Windham county among the present judges of the superior court.

BOOKLETS FOR CONDUCTORS

Explanation of New Fare Rules on the Shore Line Railway.

Conductors on the Putnam division of the Shore Line Electric railway are giving out booklets containing detailed instructions relative to the new zone system of collection of fares. The booklets will be put into effect before long.

There is much for the conductors to study and learn about the new zone system, as well as learning rules that will be of great value to them. They find by their instruction books that they must take from a passenger as he leaves a car the slip that was given him when he boarded the car. The conductors are required to turn these into the company.

The booklets are among many other things, how to punch up the new fare slips. They are told how, in special cases, a passenger is unfamiliar with the road and in doubt as to the exact station at which he desires to leave the car, how to sell to a fare terminal that will cover the ride to the center of the community to which he is going. Also that a passenger, when purchasing a cash receipt and arriving at destination, who desires to ride farther, must be treated as a new passenger, and the minimum fare of five cents collected if the farther ride is less than three zones.

The conductors are to be provided with special equipment for punching out the cash receipt slips, the present practice of using a penknife and using only five-cent fare.

Feel Out of Sorts?

It's a good idea to look for the cause?

One common, but often unsuspected cause is coffee-drinking. Yet some persons seem able to get along with coffee—at least for a time. But when headachy, bilious days come; breakfast or some other meal doesn't taste good; and the day's work goes wrong. (Ever feel that way?)—then it's time to find out for sure if coffee is causing the trouble in your case.

There's a subtle, poisonous drug, "caffeine," in coffee that interferes with the normal functions of body, brain and nerves, and has a lot to do with one's comfort and progress.

Suppose for a test you try the simple expedient of quitting coffee and using well-made

POSTUM

—a pure food-drink made of choice wheat. It has a delightful, Java-like flavour but is absolutely free from caffeine or any other drug.

After ten days or two weeks you will be able to decide whether to go back to coffee troubles, or stick to Postum and peace and comfort.

Postum comes in two forms.

Regular Postum—must be well boiled.

Instant Postum—doesn't require boiling, but is prepared instantly by stirring a level teaspoonful in an ordinary cup of hot water and adding cream and sugar to taste.

Grocers everywhere sell both kinds.

"There's a Reason" for POSTUM
