TAFVILLE BOY SIGNS WITH LAWRENCE Catcher Dennis Murphy Will Break Into Professional Baseball This Season—Had Brilliant Record During 1915—Hit for 321.

That semi-pro baseball circle will lose the greatest backstop ever developed in this part of the state is felt by the announcement that Denny Murphy, star catcher of the Taftville team for the last few seasons, has signed a contract to play with Jesse Burdett's Lawrence team of the new Eastern league.

Baseball men who know Murphy's ability are sure he will stick. A young man of good habits, 5 feet, 11 inches in height, weight 175 pounds, and 22 years of age.

His record during the past season shows that he surely has the class for Manager Burdett. Such good men as Paddy Green, Van Dyke, Ruddy Somers, Rube Gram, Fred Reiser and Bill Powers expressed great surprise at being able to come into the "bushes" of eastern Connecticut and find such a clever backstop.

Murphy hit for 321 during the season 1915, which is considered good considering the men he faced, Big Jim Testerman and Pop Parritt of the Giants.

BALTIMORE FEDS TO SUE ORGANIZED BASEBALL For \$900,000 Under the Sherman Anti-Trust Act.

Philadelphia, March 29.—The Baltimore Federal League club today filed in the United States district court here a suit against organized baseball for \$900,000 damages under the Sherman anti-trust act.

The suit is the result of the so-called peace pact arranged between organized baseball and the Federal League. It is alleged that the Baltimore club was not considered in the peace agreement.

The bill of complaint filed today recites that the National and American Leagues and their constituent parts and the National Amateur League have entered into a contract or combination in the form of a trust or conspiracy to restrain trade.

The bill further charges that the defendants entered into a combination to monopolize or attempt to monopolize the business of organized baseball.

It was said by lawyers here today that the suit has the same force and effect as the one filed in Chicago last year.

FINANCIAL AND COMMERCIAL

STOCK PRICES SWAYED. Railway Shares Were Under Restraint in the Closing Hours.

New York, March 29.—Special stocks were pushed back and forth during most of today's professional market, while Wall Street, that is, the trading center, engaged in further aimless discussion regarding European and Mexican affairs.

Superficially at least, there were no new developments in these quarters, but the lack of definite advice and the strong abstention of public interest were in themselves retentive factors.

Railway shares were under obvious restraint, especially in the latter part of the day, when Reading, Union Pacific, Southern Pacific and New York Central recorded declines of one to almost two points.

Heaviness of this group was attributed to two distinct reasons—signs of increasing tension between executives and employees over pending differences and strong indications of further foreign liquidation.

Almost one third of the day's turnover was contributed by such speculative issues as Crucible Steel, Mercantile Marine, Mexican Petroleum and Anaconda Copper.

Coppers traded irregularly higher in the forenoon, their strength and activity being associated with unconfirmed reports of the placing of additional orders for export.

Other metals were nominally higher, but yielded to moderate pressure. Copper's strength was again shunted to a subordinate position in the list of the prominent stocks and weekly trade reviews significantly to the "more conservative spirit" in the steel trade.

together with signs that the "crest of the wave" in the placing of orders had been reached or is near at hand.
