Can You Afford Any but a Titan Kerosene Engine? AT present average prices for kerosene and gasoline, Titan kerosene engines save their owners about 1.1c per horse power per hour over gasoline engines. Figure it this way. On an 8-horse engine the saving is 8.8c an hour, 88c in a 10-hour day, \$88 in 100 days of work. Say that is all your engine does in a year. It would cost you \$88 more than you need to pay, to run an 8-horse gasoline engine one year. That is more than a third of the price of
