STRIKERS HOLD BIG MASS MEETING

A Thousand Men and Women Hear Speakers at Town Hall—P. J. O'Brien, International Representative, Reviews Trouble From the Beginning—Norwich Central Labor Union Backing Strikers—Worcester Speaker Says Street Railway Men in Connecticut Are Laughing Stock of New England—Says Strikers Are Willing to Submit Difficulty to Arbitration.

Section 3—The scale of wages to be paid conductors, messengers and motormen, employed by said company shall be as follows: First six months 28c per hour Second six months 29c per hour Third year 31c per hour Fourth year 32c per hour This is one of the sections that he calls preposterous, said Mr. O'Brien. He says the employees are earning from \$2.00 to \$2.50 per week. I will give the maximum rate, 35c per hour for a nine hour day, seven days a week, and that will give the motormen or conductors \$22.05 a week and figures about the same.

Section 24—A day's work for engineers, firemen, and motormen shall be completed within nine consecutive hours. The wages for engineers shall be \$21 per week. Oilers, \$19.50 per week. Firemen, \$18 per week. Coal passers, \$17 per week.

Section 27—A day's work for all employees in shops and car houses shall be nine hours for week days, to be completed with one consecutive hour, and eight hours for Sundays and legal holidays to be completed within nine consecutive hours.

Have Brought Women Detectives. The company has not stopped at bringing in the men. But they have brought in the females. And what have they brought in the females for? To bluff the public by trying to make them think the people are riding on the cars. These women detectives and these male detectives are the only people riding on the cars.

John Reardon of Worcester, a member of the general executive board of the Amalgamated Street Railway Employees of America, was the next speaker. He said that there are very few laborers willing to submit to arbitration, said Mr. Reardon. It is a matter of fact that the street railway men of Connecticut have been laughing at the street railway employees of New England. They are paid a lower wage than any other railway employees in New England.

These men have been long suffering. They have waited patiently. There was a strike taken a year ago. It was only after a great deal of consideration that the men agreed to accept a slight increase that you might not be incoincidental with the increase in the price of the coal. We will submit this thing to arbitration and just as soon as the company agrees to arbitrate our men will return to the cars until this thing is settled.

Section 1—The company agrees to meet and treat with the properly accredited officers and the committee of the association on all grievances that may arise. If any such grievance affecting the employment of members of the association shall be submitted to a board of arbitration, matters affecting the organization of the company or the general public shall not be considered.

Section 2—A day's work for all conductors, messengers, and motormen shall consist of nine hours, to be completed with eleven consecutive hours, to be completed with nine hours in excess of nine hours to be considered overtime and to be paid for at the rate of time and one half.

Section 3—The scale of wages to be paid conductors, messengers and motormen, employed by said company shall be as follows: During the first year, 33 1-2c per hour; during the second year, 34 1-2c per hour; during the third year, 35 1-2c per hour; during the fourth year, 36 1-2c per hour; during the fifth year, 37 1-2c per hour; during the sixth year, 38 1-2c per hour. This wage scale ran from Aug. 1, 1914, to July 31, 1915, the wage scale was as follows: During the first year, 25c per hour; during the second year, 26c per hour; during the third year, 27c per hour; during the fourth year, 28c per hour; during the fifth year, 29c per hour; during the sixth year, 30c per hour. This agreement has gone out of existence and another with higher rate has taken its place.

Nurses Examining George's Power. Attorney General George E. Heman has given Secretary Abner of the State Board of Examination and Registration of Nurses an opinion as to whether the State Board of Examination may lawfully withhold approval of such training schools for nurses in this state as have not met the standards required by the board as prescribed.

Durand, Wis.—"I am the mother of fourteen children and I owe my life to Lydia E. Pinkham's Vegetable Compound.
