114,000 AUSTRIANS CAPTURED IN NEW RUSSIAN OFFENSIVE

In Many Sectors the Russians Are Still Pursuing the Austrians.

Petrograd, June 12.—The number of Austrians captured by the Russians in the new offensive movement has been increased to more than 114,000. In many sectors of the front, an official statement says, the Russians are still pursuing defeated Austrians. The statement follows:

"Owing to storms in South Russia and consequent temporary rupture of telegraph communication, reports are delayed and news of our armies is restricted. Nevertheless, it is confirmed that General Brusiloff's offensive continued yesterday. In many sectors of the front we still are pursuing the defeated enemy and in some places we attacked him hotly. He counter-attacked with desperation. "The total of our prisoners now amount to 1,700 officers and 113,000 men."

BRITISH FLEET COMPLIMENTED BY ADMIRAL JELlicoe

For the Manner in Which the Ships Fought During the Jutland Fight.

London, June 12, 7.50 p. m.—In a message to the members of the British fleet, which was given out here officially tonight, Admiral Jellicoe expressed high appreciation of the manner in which the ships of the fleet had fought during the Jutland sea fight of May 31.

"At this stage, when full information is unavailable," said the admiral, "it is impossible to enter into details, but quite sufficient is known for me to state definitely that the glorious traditions handed down to us by generations of gallant seamen were worthily upheld."

"Weather conditions that were highly unfavorable robbed the British the complete victory expected by all ranks. But although it is difficult to obtain accurate information as to the enemy's losses, I have no doubt that we shall find they certainly were not less than our own. Sufficient information already has been received for me to make that statement with confidence."

"I hope to give the fleet fuller information on this point at an early date. I do not wish to delay appreciation of the work of the fleet and my confidence in a future complete victory."

"The wonderful spirit and fortitude of the wounded fills me with the greatest admiration. I am more proud than ever of the honor of commanding a fleet manned by such officers and men."

BIOGRAPHIES OF HUGHES PRINTED BY FRENCH PRESS

Comment Upon the Nomination is Not Extended.

Paris, June 12, 5.01 p. m.—Biographies of Charles E. Hughes, the republican presidential candidate, were printed today by the French press, but comment upon the nomination was not extended.

"The decision of the Chicago convention," says the Temps, "teaches one thing we should not forget, namely, that the European war exerted much less influence on the political affairs of America than we had supposed. Questions essentially American guided the convention and considerations of a general character were only incidental."

The Temps adds that Mr. Hughes had maintained reserve owing to the judicial position he occupied, favoring neither one side nor the other in the European conflict, so that he will be able scrupulously to follow the principles enunciated by his party.

The Figaro points out that the candidates is well acquainted with Europe, coming here each year and usually visiting Switzerland, where he takes an especial interest in mountain climbing. His favorite authors, adds the newspaper, are French, notably Balzac and Dumas the elder.
