

Like a Boy at 50 Bubbling Over With Vitality—Taking Iron Did It Doctor says Nuxated-Iron is greatest of all strength builders Often increases the strength and endurance of delicate, nervous folks 200 per cent. in two weeks time.

New York, N. Y.—Not long ago a man came to me who was nearly a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find that with the blood pressure of a boy of 30 and as full of vigor, vim and vitality as a young man of 25, a young man he really was, notwithstanding his age. The secret, he said, was taking Nuxated-Iron. He had taken it with renewed life. At 80 he was in bed with health; at 85 he was out and about; at 90 he was in the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and numerous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney liver and heart trouble, etc. The fact is, true cause which started their disease is nothing more than lack of iron. Weakness, nervousness, and lack of iron in the blood, iron is absolutely necessary to give you strength and change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking. Just like a plant trying to grow in a soil deficient in iron, you are bound to fail. We'll give you a test to see how long you can work or how long you can become tired. Next take two five-grain tablets of ordinary nuxated iron three times a day for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely free of all symptoms of dyspepsia, liver and other troubles from iron. But don't take the old forms of reduced iron, iron acetate or chloride or iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron. If you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena. In many another he goes down in ignominious defeat simply for the lack of iron.—Dr. Sauer, M. D.

Employees of Lawton Mills Take Steps to Organize a Fire Company—Norwich Musicians to Assist in Bowling Green Recital—H. S. Alumni Meeting

Some of the employees of the Lawton Mills corporation who have been desirous of forming a fire company held a meeting in the machine shop at the close of work June 13 with the idea of talking this matter over and starting a company. Frederick P. King acted as chairman and with the assistance of Joseph Stubbs the following active members were chosen: Thomas E. Flynn, chief; Frederick P. King, assistant chief; Patrick Delaney, to be stationed in the machine shop; John W. Lees, Frank Congdon, James Marr, Irving Smith and Joseph Fournier, pump men; also the following were elected: Ben Metto, Andrew Peterson, E. Pecquin, A. Gammache, Joseph Choche, E. Bowdoin, Paul Con, E. Veau and A. Ducharme. In case of fire, these men should take their respective positions. It was voted also to have four drills a year, two inside and two outside, and that additional active members be added as would seem advisable by this body of men. On Thursday another meeting of the proposed fire company was held with Thomas E. Flynn presiding. The minutes of the last meeting were read and approved. It was voted to draw up by-laws of the company at some future meeting. William Chamberlain was appointed as an active member at this meeting. It was also voted to appoint one of the active firemen to inspect the hydrants every week. On Saturday the firemen in a body

KICKED BY A HORSE. Charles Egerly Was Trying to Free Animal's Leg from a Trace.

Charles Egerly was kicked in the stomach by a horse and badly injured Tuesday at about 11 o'clock while he was at work on a highway in the eastern section of the town, near South Killingly. The horse, a bay, was driving was hitched to a scraper when one of the animal's hind legs became entangled in a trace. It was while trying to free the horse that Egerly was so badly kicked. He was rushed over to Danielson in Leonard Morrison's automobile, given treatment at the office of local physician Dr. J. Kimball and taken to the Day Kimball hospital at Putnam.

To Aid Prospective Builders. In order that prospective builders of homes, ever so badly needed here, may be given an accurate idea of what can be done within reasonable cost limitations, directors of the Building and Loan association have arranged to have plans and specifications of a number of types of houses on file here. This will give a man who may want to build a home an idea of what he can do for a specific amount of money. It is believed that this plan of going into the details of assisting prospective builders will result in greatly increased interest and activity in building. Danielson is growing this summer in a substantial way, but not nearly fast enough to meet housing needs.

Rumor About Guardsmen's Orders. A story gained circulation here on Tuesday that the Thirteenth company will return from Fort Wright Saturday of this week, having completed ten days' tour of duty, and will remain here only a short time before called to go out as infantry with the other 13 companies of the company. A copy for service on the Mexican border. The story could not be substantiated here, but it was based on stories that have been filtering in from Fort Wright the past two days.

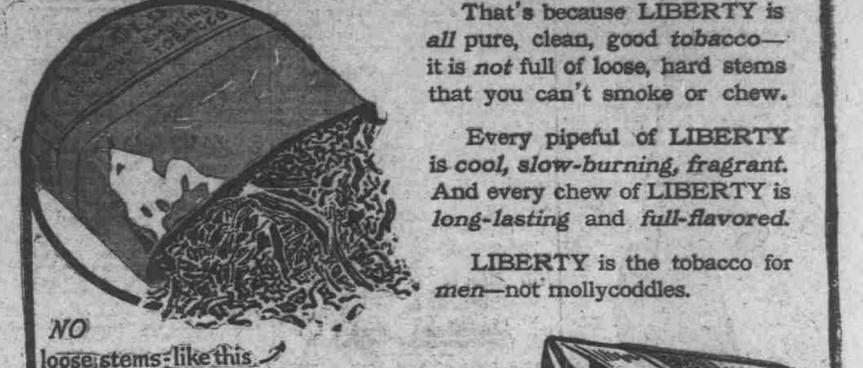

Norwich Picnic Party at Lake. Special trolley cars conveyed the members of the Central Baptist Sunday school of Norwich to a picnic party over the Shore Line Electric railway at Wildwood park, Alexander's lake, on Tuesday for what proved to be a delightful outing. Upwards of 150 men up a jolly party that arrived at the lake before the noon hour. Lunches were brought along and the pavilion was opened by Manager E. J. Peterson for the sale of ice cream and soda. The day was given over to the usual outing pastimes, full advantage being taken of the opportunities to have a fine day at the pretty resort. The car got away from the lake in time to get all their Norwich homes early in the evening. For the first time in the party it was their first trip to Wildwood park.

You get more rattling good smokes and more tasty chews out of a package of LIBERTY than out of the bigger-looking packages. That's because LIBERTY is all pure, clean, good tobacco—it is not full of loose, hard stems that you can't smoke or chew. Every pipeful of LIBERTY is cool, slow-burning, fragrant. And every chew of LIBERTY is long-lasting and full-flavored. LIBERTY is the tobacco for men—not mollycoddlers.

LIBERTY Long Cut Tobacco All the richness, snap and satisfying quality of pure Kentucky leaf are blended evenly through LIBERTY by ageing and mellowing the tobacco from 3 to 5 years. PLAYGROUNDS SUPERVISOR Miss Natalie Dion to Have Charge—Apparatus to be Made at Trade School.

Mrs. Herbert L. Pease, secretary of the Putnam Playgrounds committee announced Tuesday afternoon that Miss Natalie Dion, one of Putnam's public school teachers, has been engaged to supervise the grounds at the Israel Putnam school and at the Smith street school this summer.

Upon the return of Mr. Metcalf the work of erecting the apparatus will begin. Most of the pieces for the apparatus will be made at the trade school, which continues in session through the summer. As fast as the pieces are ready they will be assembled and placed on the grounds.

The grounds at the Smith street school will not be as large as at the Israel Putnam school, but they will be made attractive and will be well equipped. The work of clearing the grounds and making them ready is in charge of John P. Sabin.
