Infantile Paralysis a Dread Disease

City Health Officer Brophy Cautions Public Against Entertaining Children From New York Until Epidemic in That City is Past—May Issue Order Prohibiting New York Children From Playgrounds and Theatres Until Danger Period is Over.

That infantile paralysis is a disease more dreaded than small pox was the declaration made on Wednesday night by City Health Officer Edward J. Brophy. Health Officer Brophy has received from Dr. John T. Black, secretary of the State Board of Health, a warning of the epidemic of infantile paralysis in the city of New York and the need for a sharp lookout for it in Norwich. The warning has been sent out by Dr. Black to all health officers and physicians in the state. His urging is the warning that every suspicious case is reported and that quarantine be established if deemed necessary. On Wednesday Health Officer Brophy issued a warning to the people of Norwich. The warning is for the purpose of keeping children away from those who have recently come from or who may come from New York in the immediate future. A child may appear to be in the best of health during the incubation period, but later on, when the disease has been contracted, it may appear in the form of paralysis, such as the limbs, or in the play-grounds or places where people are likely to congregate. He also said that anyone having knowledge of the presence of such children in any of these places would confer a favor by reporting the same to the health officer. He said that the disease is a living organism which gains entrance through the lining of the nose. Hence one of the preventive measures is frequent washing of the nose internally, with a solution of boric acid, about a teaspoonful to a cup of hot water. CORONER HAS NOT COMPLETED INVESTIGATION

Several More Witnesses to Be Examined in East Great Plain Auto Fatality.

Coroner Franklin Brown stated on Wednesday night that he had not completed his investigation into the auto fatality at East Great Plain on Tuesday when Clarence Edmund Baker was struck and run over by the touring car owned by Andrew F. Connor and driven by his chauffeur, Clifford Rouse. Baker died at Backus hospital shortly after the accident. Coroner Brown started his examination of witnesses on Wednesday. He had before him the conductor and motorman of the trolley car on which Mr. Baker was riding. The tracks run on the right hand side of the road going west and the motorman must pass to the left of the car. There were two passengers in the touring car.

James A. Carberry who was with Mr. Baker on the car told of what he saw of the affair. He said he went with Mr. Baker to the hospital. Coroner Brown also examined Mr. Connor, the owner of the automobile, Clifford Rouse, the driver of the auto, said that the party in his car halted at East Great Plain and debated whether to go to the Fairgrounds or go to Gardner's Lake. The trolley car passed them then.

After the car had passed they decided to go on to the lake, and the auto followed the trolley car. Mr. Rouse stated that his car was not running over 10 miles an hour. Approaching the trolley car he sounded his horn. Mr. Baker jumped from the trolley into the road in the path of the touring car. Mr. Baker was unable to get out of the car and the trolley car came to a stop at almost the same time. Mr. Baker was rushed to the hospital in Mr. Connor's car.

FIRE MARSHAL'S DUTIES ARE IMPORTANT BRANCH.

Inspections of All Buildings in Business Section of City Made from Time to Time.

In his annual report to the court of common council, Chief Edward E. Stanton refers to the duties of the fire marshal as follows: This important branch of the service is attended to by the chief of the department in addition to the position of superintendent of fire alarm telegraph and is altogether too much work for one man to attend to, as the building inspection, as well as granting building permits, is looked after by the fire marshal.

Inspections are made from time to time of all buildings in the business district, either by the fire marshal or by members of the uniformed force, and records kept of such inspection. Permits were granted for new buildings and alterations during the year as follows:

- Quarter ending Sept. 30, 1915: New buildings, frame, 10; additions to buildings, frame, 7; additions to buildings, brick, 2; total, 19. Quarter ending Dec. 31, 1915: New buildings, frame, 38; new buildings, brick, 3; new buildings, concrete, 1; additions to buildings, frame, 7; additions to buildings, brick, 1; total, 50. Quarter ending March 31, 1916: New buildings, brick, 5; new buildings, frame, 6; additions to buildings, brick, 1; additions to buildings, frame, 9; total, 21. Quarter ending June 30, 1916: New buildings, frame, 11; new buildings, brick, 4; new buildings, cement, 2; additions to buildings, frame, 3; additions to buildings, brick, 3; total, 23.

EXAMINE HEALTH CONDITIONS IN STATE ALMSHOUSES.

Two Representatives of Board of Charities Visited Local Institution.

To examine the health conditions in the 67 almshouses of the state in an effort to see if any of the inmates are suffering from diseases that need special attention, the state board of charities has been sending out its workers, and two of their representatives were at the Norwich almshouse this week. They found conditions satisfactory and so reported on Wednesday at the monthly meeting of the board in Hartford. In 1915 over 400 state, from a survey of about one-third of the houses, there are fewer cases of disease than the members of the commission had thought.

ITCHY RASH ON CHEST AND FACE

Later On Shoulders and Back, Burned Like Fire, Had No Rest at Night.

HEALED BY CUTICURA SOAP AND OINTMENT

"I had a rash which began on my chest and face, soon going to my shoulders and back. It was very itchy and I had to scratch it which made it burn like fire, and the skin was sore and inflamed. When my clothing would rub against it, it caused itching and burning which was very uncomfortable and I had no rest at night, for after going to bed I would go to sleep for a few moments only to be waked up again. "I let the rash go for about a week when I used Cuticura Soap and Ointment. After the first application they seemed to stop the burning and after I used two boxes of Cuticura Ointment and four cakes of Cuticura Soap I was healed." (Signed) Wm. C. Robertson, 85 Mountain Ave., Dorchester, Mass., Oct. 21, 1915.
