BLOCK ISLAND SAFE AND SOUND

Secretary William C. Redfield of the Department of Commerce Writes Concerning Steamer's Condition—Suggests Special Inspection for Benefit of Skeptical.

Of interest to many will be this communication from a seat of authority concerning the steamer Block Island, which has been a perennial subject of discussion.

Miss Julia W. Redfield, who is at Quonochontaug for several weeks, wrote her brother, William C. Redfield, in a letter several days ago in regard to the safety of the Block Island and this is an approved copy of the letter which has been published with permission to have published.

The Block Island is a wooden ship, built in the case of wooden vessels, and does not always count as it does in iron or steel ships. For example, the wooden vessels in the Light house service over 60 years old and in perfectly sound condition, as strong and safe as the Block Island.

As regards the Block Island, no vessel is allowed to navigate without an annual inspection and annual inspections. This means that every vessel gets examined four times a year.

There has been complaint before about the Block Island and its supervising inspector, Capt. O'Donnell, a trained seaman and master of vessels, personally inspected her last year. He reported her safe and sound.

There is no judgment of the department and in the judgment of the steamboat inspection service no weakness in the vessel which would render her unsafe in which she is engaged.

It is desired to stamp out this rumor once and for all and the method to accomplish this will be the same as that adopted in a similar case in Penobscot Bay. If any responsible citizen writes in to the department, that effect, a special inspection of the vessel, open and clear for all to know the facts, will be made in the presence of that person or in the presence of any other person he may select. The person making the complaint will be expected to point out the weaknesses to which he refers and to show such basis for complaint as safe and sound.

The department is ready to proceed without delay whenever any person will ask for the reinspection who will arrange to be present in person or by representative while it takes place. Furthermore if this does not strike any critic as fair he is at liberty, and is indeed invited, to state what would be his judgment.

COMMISSIONER FELLOWS FOR CLEAN CITY.

Is Distributing Circulars Among the Citizens Calling Attention to Laws.

Street Commissioner George E. Fellows is distributing circulars among the citizens calling their attention to ordinances of the city in regard to rubbish, ashes and other nuisances. The ordinances follow.

Page 42, Section 7.—No ashes, store sweepings or rubbish shall be put in any public street in the city of Norwich, but shall be put in suitable vessels or places by the tenant or owner of the premises.

Page 43, Section 15.—Any persons violating the seventh section of this ordinance shall be fined in a sum not exceeding ten dollars, together with costs of suit; and every day's continuance of a violation thereof shall be considered a distinct offense.

The following acts are declared to be acts of nuisance of the third class: The placing of any business sign within the limits of any street of the city otherwise than parallel to and against, or as near as is convenient to the face of the building, any person who shall commit, or aid, advise, abet, or encourage the committing of any of the aforesaid acts of nuisance shall pay to the City of Norwich for the use of the city a penalty or forfeiture of five dollars, and any person who shall be deemed maliciously to repeat or continue after the person committing the same has been notified.

The continuance of any obstruction or encroachments upon any street, highway, or building line for a period of twenty-four hours after the day of the commencement thereof shall be deemed a separate and single offense.

SANDBAGGED AT WATERFORD. Arthur M. Clark Robbed of Watch and \$14 in Money.

Arthur M. Clark of Gilead road, Waterford, 37 years old, is at Memorial hospital, New London, suffering from a slight concussion of the brain, received Saturday night when he was sandbagged and robbed in a short ditch the gold watch and \$14.

The holdup occurred about 10 o'clock. A party of automobilists found Clark in the highway unconscious and medical aid was summoned, at which time a man was taken to Memorial hospital, where he was revived. It was found that he was carrying a gold watch and \$14.

Dr. Clark is unable to state whether the holdup was conducted by one or two highwaymen. The attack was so sudden that he was rendered unconscious in a few seconds and he was unable to recognize his assailant.

The authorities are making a strenuous effort to apprehend the culprits. This is the second holdup in Waterford in 24 hours, Justin Richards being held up and robbed in Quaker Hill Friday night. The theory is that the highwayman is someone familiar with the residents and sections in which the holdups are conducted and the authorities are working along this supposition.
