Compromise in Daniel Finn Claim. No Relation Found Between His Employment and Injury That Cost His Life—\$1,389.33 Compensation for Father of Stanley Mozlowsky, Fatally Gored by Bull—Taftville and New London Men Given Awards.

Compensation Commissioner James J. Donohue filed papers in four findings and awards with the clerk of the superior court on Thursday. In the matter of the claim of Theresa Huber Finn, widow of Daniel Finn of Norwich, against the Shore Line Electric company, Allyn A. Brown appearing for the claimant and Claim Agent E. G. Staplin for the company, the report of the claim agent was as follows:

From my investigation I find on the afternoon of April 14, 1916, Daniel Finn, deceased, was absent from being known by his superior, and went to New London, where he filled up with gas and crossing the street was struck by an automobile. He was taken to the Lawrence hospital, where he died on the 23rd day of April, 1916. I started an investigation and find he was not in discharge of his duties at the time of his accident. He was intoxicated, and in the third place, the widow was not his legal wife.

In view of the above circumstances the finding relative to the claimant and both the parties in question that it would be impossible to prove any causal connection between the injury and the employment, and the amount of doubt is so great as to make this a proper case for a compromise and the parties have voluntarily agreed themselves that the respondent should pay to the claimant receive the sum of \$100 to cover burial expenses, and that the same should be received by the claimant in full settlement of the claim.

Death of John Kozlowsky by Bull. MISS DAPHNE SELDEN MAKING THIS COUNTY BEST. New Woman Suffrage Organizer Will Have Meetings in Almost Every Town.

Outdoor suffrage meetings are more popular during these summer months than meetings in halls, although there have been many hall meetings all over the state since the beginning of this month. Even meetings at the homes of suffragists are being held on the streets of Norwich. Outdoor park meetings with band concerts and short suffrage speeches have been a feature of the suffrage summer activities. The end of June the cities have been somewhat neglected and suffragists have been busy penetrating into those parts of the state that are difficult to reach in winter or when the roads are bad.

CENTRAL VERMONT BOATS MAY RUN FROM PROVIDENCE But That Will Be Preceded by Completion of Southern New England Railway There.

Permission for the establishment of a steamboat line between Providence and New York was Thursday granted to the Central Vermont Transportation company by the interstate commerce commission. The company was also given the right to continue its present service between New York and New London.

This permission was given despite the prohibition in the Panama Canal act which would prevent railroads from owning steamship lines. The act provides that the company was also given the right to continue its present service between New York and New London.

Recent reports have said that the boats had been sold to Charles W. Morse, at cost, then to the United States government at the outbreak of the Mexican trouble, and finally to the Canadian government. The price for the government sales was reported to have been \$2,000,000.

Officials of the Southern New England Railway company in Providence say that they have no knowledge of the sale of the boats, and they take little stock in the stories. They say that the boats will not be operated, however, until the completion of the Southern New England Railway at Providence. The Southern New England and the Central Vermont Transportation company are both subsidiaries of the Central Vermont Railway, which is controlled by the Grand Trunk Railway.
