EXPERTS PAY VISIT TO WESTERY. State and Federal Representatives Consider Infantile Paralysis—Dr. Swartz Explains Conditions at Gulf Club—Petition of Frank T. Tillinghast, to Have Wife Adjudged Insane, Dismissed.

The infantile paralysis cases in Westery are now receiving the attention of state and federal experts, as was shown by the visit here on Saturday of Dr. Gardner S. Swartz, secretary of the state board of health, Dr. Lewis R. Thomas, a federal expert, and Mr. Harry S. Bernstein, state pathologist. They visited the home of Thomas Perry, whose two children, Margaret, aged 11, and Frances, aged 8, cousins of Edith Perry, who died of infantile paralysis Friday, are confined to their beds with strong symptoms of the disease. Edith Perry, daughter of Harvey Perry, was buried Saturday afternoon after Dr. Bernstein had taken note of the child's spinal column. The doctor intended to make an autopsy, but it was not undertaken.

Dr. Swartz, Thompson and Bernstein visited several places where the disease has found victims and the conditions were closely observed. Unusual surroundings were found and corrective instructions were given. One family was found whose children have symptoms of the disease, with bunches of bananas in their cellar. The fruit was ordered destroyed. Another condition of some significance was that a performing bear and a monkey with an organ grinder had been performing in the streets of Westery. Dr. Swartz declined to state whether in his opinion the Westery cases, or any of them, had been carried by the monkey. It is known that children give monkey a wide berth, as they are more susceptible to infantile paralysis than any other animal. Dr. Swartz had an address at the Misquamicutt Golf club before many summer residents of Watch Hill, including two physicians. In answer to a question Dr. Swartz told the assembly that it was not necessary to put a stop to the presence of caddies from Westery, nor was it necessary to institute such a strict quarantine that no Westery children be permitted to visit the Watch Hill section of the town. He told them no quarantines are necessary, as there was no apparent danger from the visitation by Westery children. The state board is not in co-operation with the state board of Connecticut in strict examination of children, in passage from one place to another in the state, or in interstate visitation. While the board could not take any action by just the method of conveyance of the disease, there was belief that strict quarantine of children coming into the state was entirely useless as a preventive of the disease. The visiting experts are satisfied that the diagnosis of every case reported in Westery by local physicians was absolutely correct. Late Saturday afternoon the premises of Edward Hoyt in Hillside avenue, Pawcatuck, were quarantined by

BAD DREAMS ARE SYMPTOMS. Ill Health the Cause—Many Alarming Symptoms of Women's Ailments—How Cured.

Paterson, N.J.—"I thank you for the Lydia E. Pinkham remedies as they have made me feel happy and healthy. Some time ago I felt so run down, had pains in my back and side, was very irregular, tired, nervous, had such bad dreams, did not feel like eating and had short breath. I read your advertisement in the newspapers and decided to try a bottle of Lydia E. Pinkham's Vegetable Compound. It worked from the first bottle, so I took a second and a third, also a bottle of Lydia E. Pinkham's Blood Purifier, and now I am just as well as any other woman. I advise every woman, single or married, who is troubled with any of the aforesaid ailments, to try your wonderful Vegetable Compound and Blood Purifier and I am sure they will help her to get rid of her troubles."—Mrs. ELISE J. VANDER SANDE, 7 Godwin Street, Paterson, N. J.

Women suffering with any form of female ill, or any symptoms that they do not understand, are invited to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential), and receive advice wholly free of cost.

STONINGTON. State Police Haul Speeders Into Court—K. of C. Lawn Fete a Success.

The state police, determined to put an end to using the state highway as a speedway for automobiles, and brought considerable gleet to the Stonington court of justice Saturday. Judge Elias B. No More Back-Breaking Scuttles To Be Carried Up Those Cellar Stairs

If you buy coal in large quantities you must have room to store it; if in small quantities, it is expensive. When you want to use it you must carry it from its storage place to your range, and of all tasks that is one of the most weary.

When you burn wood or coal you have the heat, dirt, and the trouble of attending to the fire. If you use gas you require no room for storage; no back-breaking scuttles to be carried from the cellar to the kitchen. The fire in the gas range burns steadily and without attention; it is always ready, without dirt or trouble, in large or small quantities.
