STORRS TUG-OF-WAR

Results in Defeat of Freshmen and Ducking for Some Members of the Class.

The annual tug of war event held at Storrs college Tuesday resulted in a free for all scramble before it was finished. The event which is held across a pond, resulted in a victory for the second year men, in as much as they pulled the freshmen into the pond. But at this stage of the proceedings there came a misunderstanding. The younger classmen admitting their defeat went to the sophomore side of the pond and started to cheer the victors. The latter not understanding the well meant act endeavored to push the freshmen back into the pond, but met with strong opposition and in some cases a severe ducking.

The upper class has since apologized for their rash act and have been forgiven by the new comers.

Addition to South Windham Plant.

Most of the work excavating for the addition being built by the Smith & Winchester company of South Windham has been completed. The addition is being built on the south side of the present building and it is nearly twenty-five feet wide and nearly as long as the old plant. It is expected that the building will be completed before cold weather sets in.

Sand Bank Nearly Causes Accident.

The advisability of tearing down the sand bank that stands on the corner of what is known as sanitarium crossing South Windham, was again shown Thursday afternoon when two automobiles and a trolley car almost came together at this point. The trolley was going in a southerly direction as well as one of the machines, the other was coming up the hill at a fair rate of speed but managed to stop before it got onto the track in front of the car. The machine that was going in the same direction as the car came to a stop but the driver did not see the other machine as the trolley obstructed his view. When the trolley pulled out of the way both machines and drivers started at the same time and in so doing nearly collided. Both drivers of the machines stated that the sand bank should be removed so that the view from the corner would not be obstructed.

to attend public gatherings. Heretofore all children under the age of sixteen years have been prohibited from attending these gatherings but upon the latest orders issued by the health officer the aged limit has been reduced to twelve years. This order is purely a local one, as the rule governing children under sixteen coming into the city still holds good as in other cities. This latest order is the result of finding that only one per cent of the cases reported in the state have been children or adults over twelve years of age.

POLITICAL TALK
Attorney Frank H. Foss May be Named as Judge of City Court.

The politicians of this section are now busy planning on the coming fall election in Willimantic. There have been a few names mentioned in the circles of these men in regard to their running for offices on their respective tickets. The names mentioned by the republicans in this city is the name of Frank H. Foss for the office of judge of the police court. Mr. Foss is a newcomer to Willimantic but in the short time that he has made this city his home town he has made many fast friends and it is these friends that have suggested his name for the position. It is thought that if Mr. Foss will accept the nomination he used at the coming election he will make a strong run for the judgeship. The democrats have also named two or three names to run for the office of representatives from this section who, if they will allow their names to be used will make strong runs for the positions as the party has strong positions. The two men mentioned are H. Dion and Frank H. Fenton, the present town clerk. Mr. Dion has a host of friends and well wishers in Willimantic who would like to see his name placed on the ticket for the election. Mr. Fenton's friends who want to see him run for the judgeship, think that his name is the best that can be found to place under the head of representative and these two men of these two men will undoubtedly procure the nominations for them. It is known that one of these men is trying for the office and has expressed no desire to act.

Brief Mention.
Miss Winifred Tracy has left to enter Lasell Seminary, Auburndale, Mass.
County Sealer of Weights and Measures, Charles Johnson of Thompson was in Willimantic Thursday.

As only two men have applied for the membership in the Willimantic has been dropped from the list of stations by the headquarters in Hartford. Neither of the two men that applied was accepted by the recruiting officer.

SIMPLE HOME TREATMENT FOR RUPTURE

Free Trial and Demonstration At Wauregan Hotel

Rupture sufferers in and near this city will be given the opportunity of witnessing a most remarkable demonstration of what STUART'S PLAPAO-PADS do for ruptured people. Those desiring it will also be given a liberal trial of PLAPAO for home treatment. Consult Dr. F. M. Smith.

DOES AWAY WITH TRUSS

The PLAPAO-PADS are entirely different from the article commercially known as a "truss." In fact, they are designed to get away with the steel and rubber that chafe and pinch, their remarkable success being due to a principle of keeping constantly applied the scientifically compounded absorbent material called PLAPAO. The purpose is to contract and strengthen abdominal muscles, thus closing the hernial opening as nature intended so the rupture can't come down.

Being self-adhesive, and when adhering closely to the body slipping or shifting is impossible. Therefore they are an important adjunct in retaining rupture in the position held by a truss. Demonstrator Babcock, whose wide experience in this country and Europe makes him an authority on matters pertaining to the application of PLAPAO-PADS, will give a free trial. He will be at the Wauregan Hotel, Norwich, Conn., Saturday, Sept. 23rd, only. Hours 10 A. M. to 2 P. M. and he will be pleased to give WITHOUT CHARGE, all the valuable advice and trial for home treatment. Do not fail to call on Mr. Babcock during his stay in the city.

CONSTANTINE OF GREECE AS HE LOOKS IN HIS MOST RECENT PORTRAIT
The trouble King Constantine of Greece has had to bear since Europe broke into war has been at the rate of one trouble per minute. He has been standing between two emotions. First, his wife, who, being the Kaiser's sister, fought against any movement which would pit the Greeks against her brother in bloody conflict; second, the greater part of his subjects have insisted that Greece join with the allies. Standing out against his people for so long, he at last lost most of the popularity he and the queen held at the time of their ascension. Then an old Greek tradition was resurrected which held that when a Constantine and a Sophia next sat on the Hellenic throne Constantinople would in time become their capital. This hope is now lost.
