HAD TO BRING MAN TO NORWICH

Harrowing Case of Tuberculosis Discovered in Derby.

A harrowing case of tuberculosis was reported Friday to the state tuberculosis commission from Derby. It was that of a young man in an advanced stage of consumption who had no other sign of infection than a barium sulfate shadow in the lungs.

Secretary Allen telephoned to the district sanatoria and finally obtained a bed for the patient in the sanatorium at Norwich, which it was feared he might die while being taken from Derby to Norwich. The commission has waiting list of about 100 cases for admission.

Covers were laid for 14 and the place cards were in the form of riddles that caused much merriment.

Miss Irene Wells, president of the class, was toastmistress and the following were the main items: Miss Blair, Miss Elizabeth Hison, To the Teacher, Miss Mazie Rider, To the Single Members of the Class, Mrs. Gorton Ferguson, and other members.

The menu served followed: Tomato Bisque with Wafers, Roast Chicken, Sweet Potatoes, Mashed Potatoes, Polled Onions, Tomatoes, Pineapple Salad, Hot Fudge Sundae, Angel Cake, Demi-tasse.

During the evening in behalf of the class Miss Wells presented Miss Blair a picture of the state tuberculosis commission. Miss Blair accepted in a few well chosen words. A light photograph of the group was taken.

MARY BAKER COMMITS SUICIDE BY POISON. Norwich Girl Took Her Life in New London House.

Miss Margaret Berner, alias Mary Baker, 2 years of age of New London, formerly of Derby, committed suicide by drinking carbolic acid on Friday evening about 10:30 o'clock in a rooming house on Golden street, run by Mr. George Larkin.

Miss Baker was a witness in the superior court in this city this week, upon which she had returned once a man were convicted of using her as a white slave.

Once before this summer Miss Baker attempted to end her life by jumping off the New London municipal dock, but she was rescued by a sailor.

Miss Baker went to the Larkin house about 9:30 o'clock in the evening and engaged a room stating that she expected to work soon and was apparently in good spirits. She went out about 10 o'clock, stating she would be home in a few minutes and shortly after 10:30. She swallowed so much of the poison that she screamed attracting the occupants of the house and the neighbors.

The label on the bottle of acid was that of Starr Brothers, New London, and was in the name of Starr Brothers. Miss Baker did not purchase any acid there Friday evening. In her pocket book was found \$2.50 and a piece of an envelope addressed to George D. Betts, Norwich. Miss Baker was rushed to the hospital, but died a few minutes after arrival there. Miss Baker left no notes or reasons for her act, and she was apparently in good spirits when she re-entered the house.

STATE HEALTH BOARD DISCUSSED CHILD PARALYSIS. Members Meet Once a Month to Talk Over State's Health.

The state board of health held a monthly meeting Friday afternoon at the Hotel Grand in New Haven. In addition to the holding of the regular quarterly meetings, the members of the board now come together once a month for the discussion of matters relating to the health of the state.

The principal business of the meeting related to the policy of the board in regard to infantile paralysis. The board discussed the budget for the next two years with the view of preparing a statement for the state board of finance and later to be considered by the committee on appropriations, of which the finance board will form a part, at the next session of the general assembly. The board was given an appropriation of about \$12,000 at the last session, but it is believed that a much larger appropriation will be necessary to carry all the work in the future. Its scope is enlarging and this calls for more money than has been at the disposal of the board heretofore.

MIDNIGHT FIRE DESTROYS STONINGTON LANDMARK. Explosion in Elder Chesbrough House Was Followed by a Burst of Flame.

(Special to the Bulletin.) Stonington, Sept. 22.—A few minutes before 12 o'clock tonight an explosion in the rear of the Chesbrough house, a mile east of the village, was followed immediately after by a burst of flame, and in a short time the building was blazing merrily. The fire department was soon called out by the bell with their hose cart, but the fire had gained quite a headway before they arrived on the scene.

The house has been unoccupied. It is now owned by John Kellas, Jr., as the next owner of the destruction of the village. The fire was caused by a gas leak in the chimney.

John Barry Thrown FROM HIS WAGON. Was Struck by Disco Brothers' Auto Delivery in Accident on Out Street.

At one o'clock Friday afternoon, John Barry, the veteran expressman, received a severe scalp wound in the back of the head and a cut over the left eye as a result of a collision with a commercial car owned by Disco Brothers, and driven by Alexander H. Disco, Jr.

Mr. Disco had backed the car from the driveway adjoining the street. Dr. Walker attended the injured man who was conveyed to his home by Philip Barry in the latter's automobile express truck.

The horse was cut considerably about the legs and the tire of the wagon were broken. The front axle of the machine was badly sprung.

RENEWED TESTIMONY

No one in Norwich who suffers backache, headaches, or distressing urinary ills can afford to ignore this Norwich woman's twice-told story. It is confirmed testimony that no Norwich resident can doubt. Mrs. Margaret Brown, 340 West Main Street, Norwich, says: "My back and kidneys were in a bad way. I suffered much from a dull, heavy ache in my back. It grew worse gradually until it was almost impossible for me to get out of bed mornings. I continued in this condition for nearly a year, trying medicines prescribed for relief, but without avail. Finally I happened to hear of Doan's Kidney Pills, and procuring some at Sevin & Son's Drug Store, found them just what I needed. My kidneys are now acting regularly, the pains have left and I can get around all right." (Statement given July 22, 1911.)

On May 16, 1916, Mrs. Brown said: "At times when a cold settles on my kidneys and causes my back to ache, I use Doan's Kidney Pills and they never fail to give me prompt relief."

Origin of "Petrified Forest"

The "Petrified Forest" of Arizona really a series of petrified forests, lies a short distance south of Adamana, J. the line of the Santa Fe Railway. There are four "forests" included in a Government reservation called "Petrified Forest National Monument," created by presidential proclamation in 1906. The name "forest" is not strictly appropriate, for the petrified tree trunks are all protruding and are broken into sections. The logs and the remains of giant trees that grew in Tertiary time, the age of reptiles. The trees were several feet in diameter, and some of them were related to the Norfolk island pine, now used for indoor decoration. Doubtless they grew in a neighborhood of a shallow water course, down a water-course and lodged in some eddy or a sand bank. Later they were washed away and broken into sections to a depth of several thousand feet. The conversion to stone was effected by gradual replacement of the woody material by silica in the form of chalcydones, deposited by underground water. A small amount of iron oxides is also present, and this gives to the brilliant and beautiful brown, yellow, and red tints which appear in much of the mineral.

The petrified wood are beautiful objects for study. When thin slices are carefully ground down to a thickness of 1/100 of an inch and placed under the microscope they show perfectly the original wood structure, all the cells being distinct, though now they are replaced by silica. By studying the sections F. H. Knowlton, of the United States Geological Survey, Department of the Interior, has found that most of these petrified trees were of the species Araucarioxylon arizonicum, a tree now extinct. It is known that at that time the same geologic time also in the east-central part of the United States, where the remains of some of its associates have also been found. These included other cone-bearing trees, tree ferns, cycads, and gigantic horse-tails, which indicate that at that time the rainfall was abundant.—U. S. Geological Survey.
