PAIGE The Standard of Value and Quality Once Again— It is true that the public has learned to expect great things of the Paige-Detroit Motor Car Company. We have never been content to merely trudge behind the rank and file. The Paige Company has been a creative force in the automobile industry—as a long line of "unusual" motor cars very eloquently testifies. And, this year, Paige cars are no exception to the rule. We have again accomplished the "impossible"—again Paige acts as pace-maker in automobile progress. Ours has been an enviable record, but without hesitation, we affirm that the New Series Paige Fairfield "Six-46" represents the greatest achievement in our history as motor car builders. We have always planned to build just a little bit better than any competitor in our field, but the New Fairfield has surpassed even our rosiest hopes. It is the most amazing accomplishment of a company that has always produced amazing motor car values. We make this statement in absolute sincerity and with full realization of our responsibility. Any man who is familiar with Paige history will realize that no greater tribute could be paid to any car. FAIRFIELD "SIX-46" SEVEN-PASSENGER \$1375 F. O. B.
