INJURED IN AUTO ACCIDENT

C. E. Lane Received Bruises About Face and Head When His Machine Crashed Into Electric Light Pole on West Main Street—Taken to Hospital in Unconscious Condition—His Injuries Are Not Considered Serious.

Clinton E. Lane, who conducts a tire repair shop on Franklin street, was badly injured Thursday night on West Main street near the home of R. B. S. Washburn when the service car that he uses in his business and which he was driving, crashed into an electric light pole.

It was not learned how the accident occurred. Harry Washburn heard the crash and found Mr. Lane partially out of the machine and unconscious. He was taken from the machine and word was sent to Dr. Higgins who had him conveyed to the Backus hospital. As the ambulance was just called for an accident in Taftville Supt. Hutchins went after Mr. Lane in his automobile.

At the hospital it was found that Mr. Lane had his face lacerated, probably by glass from the broken windshield, a bruise over the right eye and he was badly shaken up. The front of the machine was smashed considerably and one wheel was knocked off.

Broken Leg and Fractured Ribs. Another one of those heartless, brutal, unmerciful acts of the autoist, who speeds along the highways regardless of the rights of others, today his victim seriously injured, or perhaps dying in the road, without the aid which might be given him in his suffering, occurred Thursday evening near Taft's station when James Carpenter, 45, of New Bedford, was struck by an automobile and not stop but kept right on out of sight.

Mr. Carpenter who is a painter by trade but out of work at the present time came to the Taft's station waiting room Thursday evening and asked for something to eat saying that he had not eaten since morning. Mr.

Morin, who runs the waiting room gave the man, who seemed to be deserving, a meal and while Mr. Carpenter was eating two men who had taken to Norwich a load of furniture in an auto truck from Woonsocket, came for something to eat and upon going out offered to take Mr. Carpenter to Woonsocket with them. Mr. Carpenter agreed and the three men left the waiting room for the machine outside.

Just as the men were crossing the street an automobile going at unlawful speed, bore down upon them, the men with Mr. Carpenter jumped but Mr. Carpenter was too late and was struck by the machine which did not slacken speed but kept right on toward the city. The men picked the injured man up and carried him into the station where Mr. Morin telephoned for the ambulance and also notified the police of the accident. Mr. Carpenter was taken to the Backus hospital where it was found that he had a broken leg an a fracture of ribs.

The police upon notification of the accident dispatched men to Greenville and stationed men at all entrances to the city but nothing could be learned that would lead to the discovery of the heartless driver of the machine.

There was considerable trouble in securing a doctor for the injured man, but the supervisor at the local telephone exchange came to the rescue. She tried to get several doctors but was unsuccessful and then she notified the Backus hospital and the ambulance was sent after the man. The supervisor shortly afterwards got Dr. Callahan by phone and he went to the scene.

WEAK AND TIRED WOMAN

Tells How Vinol Made Her Strong. Norwich women who are weak, run-down and suffer from the consequent effects of such a condition, will be interested in Mrs. Odell's letter. She says:

"I am a farmer's wife and was all run-down, weak, tired, and suffered from indigestion, and sometimes it seemed as though I could not keep around and do my household. I had taken many medicines without benefit. One day I saw 'Vinol' advertised and made up my mind to try it. I have taken four bottles and have gained seven pounds in weight, am much stronger, and feel many years younger than before." Sarah Odell, Lockport, N. Y.

The reason Vinol builds up weak, run-down women so quickly is because it contains a delicious combination of most successful tonics, beef and cod liver peptones, iron and manganese peptones and glycerophosphates in a mild tonic wine.

We want to say to every weak, run-down, over-worked woman in Norwich that we will return your money if Vinol fails to help you as it did Mrs. Odell.
