TWO BREAKS DISCOVERED
Cash, Oranges and Chewing Gum Are Taken From Brook Street Place—About \$9 Missing From Main Street Market.

It was learned Tuesday that two small breaks had been made in two stores between Sunday night and Tuesday morning. The first was made Sunday night while the second was done some time between noon Monday and opening time Tuesday morning.

The first store to be entered was that of Max Bretschneider on Brook street. It is not known how the break was made but it is thought by the owner of the business that those making the entrance had procured duplicate keys and in this manner made an easy entrance. Five dollars in cash, four dozen oranges, some chewing gum and other articles were missing from the store when it was opened for business Monday morning. The other place to suffer from the work of thieves was the Windham Market on Main street and it is thought that about nine dollars in cash was the only thing taken from the store. Entrance was gained through the door by breaking the glass and burning the lock. The work of making a hole in the pane of glass was done by a glass cutter as the hole was round and clean cut. It is not known what time this break was made as the market closed at noon Monday and the owners did not return to the store until Tuesday morning when they noticed the break. It is thought that the first break was done by some boys who have been very active in getting into small stores in the vicinity for the past six months.
