SALTS IF BACKACHE AND KIDNEYS HURT

Drink lots of water and stop eating meat for a while if your bladder troubles you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a specialist. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sore and paralyzed. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the uric acid wastes. Meats cause backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jay Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jay Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

Nuxated Iron to Make New Age of Beautiful Women and Vigorous Iron Men

Say Physicians—Quickly Puts Roses Into the Cheeks of Women and Most Astonishing Youthful Power Into the Veins of Men—It Often Increases the Strength and Endurance of Delicate, Nervous, "Run-Down" Folks 200 Per Cent. in Two Weeks' Time

A Wonderful Discovery Which Promises to Mark a New Era in Medical Science

New York, N. Y.—Since the remarkable discovery of organic iron, Nuxated Iron of Dr. Caldwell, as the French call it, has taken the country by storm. It is conservatively estimated that over three million people annually are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors predict that we shall soon have a new age of far more healthy, rosy-cheeked women and vigorous iron men.

Dr. King, a New York physician and author, when interviewed on the subject, said: "There can be no vigorous iron without iron. Paley says, 'Anemia means iron deficiency. The skin of anemic man and woman is dead. The brain fags and the memory fails. It often gives rise to some weak, nervous, irritable, despondent and melancholy. When the iron of organic iron, just as you would use salt when your food has not enough iron.'"

Dr. Sauer, who has studied abroad in great European medical institutions, said: "I have said a hundred times over, over and over again, that the strength builders, if people would only take Nuxated Iron, just as you would use salt when your food has not enough iron, they would be able to do anything."

Dr. Sauer, who has studied abroad in great European medical institutions, said: "I have said a hundred times over, over and over again, that the strength builders, if people would only take Nuxated Iron, just as you would use salt when your food has not enough iron, they would be able to do anything."

Hearing was made. Hearing will also be given Thursday on the resolutions appointing John H. Barnes judge and Henry H. Pettis deputy judge of the city court of New London.

Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were alling all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days. The four weeks' time, possibly a month form. And this after they had in the past been doctoring for months without obtaining any benefit."

Mr. Molloy of Derby presented a resolution that the speaker appoint a committee of three to draft suitable resolutions concerning the death of Mr. Peck. Speaker Healey appointed as the committee Messrs. Molloy of Derby, Turney of Windsor and Treat of Orange.

Meach to the society as a home for missionaries on the condition that the maintenance of this nature, more than are required, and the society asks for authority to sell the Norwich property and use the proceeds toward the maintenance of the other and similar established homes.

Other matters of local interest heard before the judiciary committee was the bill concerning the salaries of the New London county court of common pleas, with special reference to the assistant clerk, who asks for \$2,000 a bill authorizing Alfred Colt and others to transfer real estate to the trustees of the Central Mission school in connection with merging with the Billings P. PAWCATUCK IMPROVEMENT.

Mr. Babcock Secures Definite Statement from State Highway Commissioner.

Representative Burdon A. Babcock, of Pawcatuck, is actively engaged in an effort to secure state aid in improving the condition of West Broad street from Liberty to Morgan streets in the village of Pawcatuck. Tuesday, he received this statement from C. J. Bennett, state highway commissioner: "With reference to the improvement of the road leading from Westerly to Stonington through what is known as Pawcatuck, we estimate that the cost of constructing the entire width between the curbs from the end of the granite pavement in West Broad street to the intersection of the fork of the road at the top of the hill, will be \$14,240, using a concrete pavement or a pavement with a concrete base."

"The state is ready to pay \$3,000 of the amount which is the approximate cost of a strip of road eighteen feet

iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause which starts their disease was nothing more nor less than a weakened condition brought on by lack of iron in the blood.

"Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man. In fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron. He had filled him with renewed life. At 30 he was in bad health; at 40 he was at the gates of death; at 50 he was nearly all in. Now at 60, after taking Nuxated Iron a miracle of vitality and his face beaming with the buoyancy of youth. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking. Just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were alling all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days. The four weeks' time, possibly a month form. And this after they had in the past been doctoring for months without obtaining any benefit."

NOTE—Nuxated Iron, which is prescribed and recommended by physicians in such a great variety of cases is not a potent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the other inorganic iron products it is easily assimilated, does not injure the bowels, make them black, nor upset the stomach, on the contrary it is absorbed readily in nearly all cases of indigestion as well as for nervous, run-down conditions. The manufacturer, therefore, has great confidence in Nuxated Iron, that after its use for 100,000 in any charitable institution if they cannot take any more under 60 who take iron, and increase their strength 50 per cent or more. The four weeks' time, possibly a month form. And this after they had in the past been doctoring for months without obtaining any benefit."

will contribute \$3,000 towards putting an eighteen foot strip through the center."

"I do not care, however, to go into this paying unless the town will do the extra widths and will make the condition of the town will appropriate a sufficient amount of money to construct the extra widths, the state

Mr. Babcock will cause the circulation of a petition to call a special town meeting to take action on this proposition, in the near future.

MME. MATZENAUER, HUSBAND AND BABY

It was made known that the separation of Mme. Margarete Matzenauer and her husband, Ferrari Fontana, both members of the Metropolitan Opera company of New York and the divorce suit subsequently brought by Mme. Matzenauer against her husband were due in part to their differing sympathies in the present war between Germany and the United States. The defendant not only denied the charges against him, but asked for a separation of the property. The case was left this country for Italy when his wife got the evidence on which she based her divorce suit and the papers were served on him by publication.

He has since returned to defend the action. The part played by the war in the differences between the Austrian singer and her Italian husband is set forth in the answer of the tenor, in which he says: "The war now pending in Europe caused her to continually accuse me of being responsible for the death of her people. She was always quarreling with me over the war and accusing me. When I went to our camp in the Adirondacks in the summer of 1915 I found that she had hired all German servants, who could not speak English. She knew I couldn't understand them and that it annoyed me, but she refused to discharge them."

Will Never Be Without This Simple Laxative

Dr. Caldwell's Syrup Pepsin Relieved Her Baby When Nothing Else Would

Little Max Pendergrast is now four years old, and a fine, healthy boy. When but a tiny baby, in fact almost from birth, he suffered a great deal from constipation. His mother, Mrs. Carl W. Pendergrast, Red Key, Ind., heard of Dr. Caldwell's Syrup Pepsin, obtained a bottle of it from the drug store, and with it was able to quickly correct this condition.

Mrs. Pendergrast says Dr. Caldwell's Syrup Pepsin has saved them from calling the doctor many times, and that she will never be without a bottle of it in the house to use when needed. She found it equally effective as a laxative for herself and other members of the family.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin, pleasant to the taste, mild in action and positive in effect. It does not gripe or strain, and contains no opiate or narcotic drug. It is the ideal family laxative, mild and pleasant for baby, yet acting quickly on the strongest constitution.

To avoid imitations and ineffective substitutes be sure to ask for Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 465 Washington St., Monticello, Illinois.
